

MEET YOUR ECOBEE

Here's what you'll see on the home screen:

## MEET YOUR ECOBEE

### And here's what that means:

#### **System Mode**

Shows your current ecobee setting [heat/cool/auto/off]

#### **Humidity**

Shows the indoor humidity in your home

#### **Temperature**

Shows the temperature in your home

#### **Menu**

Allows you to control your system, schedule a vacation, and more

#### **Weather**

Shows the local weather and forecast for the week

#### **Quick Changes**

Touch this button to easily switch from Home and Away

#### **Slider to adjust Temperature**

Slide the bubble up or down to adjust your preferred temperature

## MEET YOUR ECOBEE

These system mode icons are shown on the Home screen and in Quick Changes.

### Heat

Your system is in heat mode. A white icon means your system is off. An orange icon means your system is running.

### Cool

Your system is in cool mode. A white icon means your system is off. A blue icon means your system is running.

### Fan

Your fan is currently running.

### Auto

Your system is in Auto mode, meaning your system will heat or cool as required.
