Update on a prior style

Prior season addition ("Carryover Style")

Durable Water Repellent (DWR): Resists water but isn't fully waterproof.

Quick Dry: These water-resistant products keep moisture on the surface of the fabric, allowing the sun or air to easily evaporate it.

Anti-Odor: A finish applied to fabric or yarn that inhibits odor-causing bacteria, helping keep the material/ garment fresh by stopping bacteria from interacting with sweat.

Stretch: Stretch fabric is designed to move with your body, expanding and contracting to give you maximum flexibility during any sport, activity, or movement.

Moisture Wicking: These fabrics are designed to pull sweat away from your skin and move it to the outside.

Recycled polyester: Often called (rPet), is made from plastic bottles, reducing landfill waste. Its production requires fewer resources and emits less CO2 than creating new fibers.

UPF (Ultraviolet Protection Factor): Indicates how much UV radiation a fabric blocks to protect skin from sun damage (UVA/UVB/UVC rays).

Waterproof: Completely blocks water from entering but still allows perspiration to pass through and escape.

Oeko-Tex®: certifies materials at all production stages to ensure safety, testing for over 300 chemicals to verify products are free from harmful substances.

Global Recycled Standard (GRS): The objective of the GRS is to promote the increased utilization of recycled materials.

Bluesign®: Leading textile standard for chemical management, prioritizing safety for the environment, workers, and consumers.

It all started with a conversation about the current state of athletic apparel. Navigating this saturated market, one major question kept coming up: what happened to the 'sport' in sportswear? Quality and durability are questionable with many athletic brands, while the focus of athleisure is more on fashion than fitness.

The industry has forgotten its most important players: athletes. Athletes of all kinds, shapes and sizes. The professional athlete, the intense athlete and the casual athlete. It's not important how celebrated of an athlete you are. What is important is when you're making an athletic move, big or small, you're wearing the apparel that will benefit you the most. Greatness Wins saw there's a need for something better. All athletes deserve something better, and we're stepping up to the plate.

At Greatness Wins, our vision is simple: to create the next great athletic brand. Curated and tested by some of world's greatest competitors, this is the gear we always dreamed existed: Meeting our exacting standards for quality, construction and endurance; Using only premium fabrics that can withstand your toughest workouts; Ensuring our signature clean, consistent fit every time. Committing to sustainable practices, we aim to inspire future generations of athletes to dream big and put in the effort in pursuit of those dreams.

You've heard all the buzzwords – moisture wicking, quick dry, anti-microbial, etc. – and those features are undoubtedly important. But many brands offer these. What sets a superior athletic outfitter apart is simple: fit and fabrication. We take pride in our fastidious attention to detail. We use the same, precise specifications over and over again to ensure a great fit the first time and every time. No matter the product. Season to season. Our obsession with quality isn't about being fancy; it's about the performance of the clothing itself. We searched the globe to find durable tech fabrics that won't rip, pill or lose their shape after working out or in the wash. With their clean, crisp, uncluttered style, these pieces are truly built to last.

Here, you'll find a curated assortment of the best purpose-built athletic wear anywhere. We've simplified your shopping experience, so there's no more endless scrolling through a dizzying array of products. Finding the right gear for your activity has never been easier, so you can put your time in where it counts.

Greatness Wins is more than a name. It's our founding principle and philosophy. It means doing everything possible to achieve a dream—and then going way above and beyond that. It's about innate drive to propel past those first successes and remain motivated to succeed over and over again. What separates good from greatness is the ability to stand the test of time ... to shape the game and how it's played, forever.

We won't deliver anything less than great.

Our Polos

We offer a range of premium polos

Athletic Tech Polo

Features our classic collar, GW branding, and half-moon neck facing

Athletic Tech Polo II

An updated version with a modern collar shape and new white label branding; fit remains the same as the classic polo

Performance Tech Polo

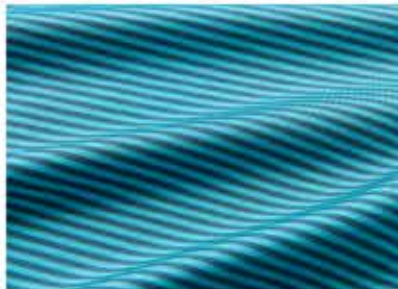

Builds on the Athletic Tech Polo II, adding an upgrade neck label and clean look by removing the back shoulder facing
