KAM K'S ON A MISSION

BY PRIYA BRANTLEY

We sat down with the mother of Kam K, the thirteen-year-old “kid-preneur” on a mission. She was able to give us the latest scoop on her daughter’s venture that has proven to be a successful one. Kam K started doing sweet treats like cake pops, chocolate covered pretzels, and candied apples. However, she soon got involved with sno cones and soft-serve ice cream. They are making their mark in the Baltimore area with her concession trailer over the summer. She has soon proved that she is a force to be reckoned with. Not only does she have her own team of employees at the impressive age of thirteen, but she also has plans to get her own food truck in March of 2020.

Kam K has seen a lot of support in her community. She currently does a variety of large statewide events such as AFRAM. She also has landed corporate contracts as a featured entrepreneur at business events in Maryland. The public’s favorite combination from her concession trailer is her customer galaxy snoball and creamy vanilla soft serve. However, not only does Kam K produce delicious treats, but she also produces hope in the community by helping to employ poverty stricken teens.

What’s in store for her in 2020? The possibility of rolled ice cream and the addition of a new Taylor soft serve machine is in the books. She is looking to add more ice cream flavors and concepts to her venue, showing her true flair for creativity. If you are in the Baltimore area, check out her venue and support the kid-preneur that has made it a mission to support her community. To start booking Kam for an event in 2020 send her team an email at sweekamk@gmail.com!

Are you interested in opening your own frozen dessert venue? Here at Slice’s Concession, we have a wide assortment of frozen dessert machinery that can further enhance the experience of your venue. Whether it be a low volume countertop model to add a few additional menu items, or a full standing model to carry you through your grand opening and beyond. We are the number one distributor in the nation of used ice cream and frozen drink machines. We feature popular brands such as Taylor, Stoelting, and Carpigiani. We have machines with both single and three-phase capability, as well as air or water-cooled. Our experts will help guide you in picking the best machine for your venue. With an east coast and west coast office, as well as stellar reviews on both Facebook and Google, you will see why we are trusted as the best. Visit our website, or if you are in the area, set up an appointment to stop by!
