(Horticulture & Animal Husbandry Components)

Ending Thirst, Hunger and Poverty - PRICELESS!

Mapinduzi Village

Terrain that Mapinduzi villagers walk multiple times a day to fetch (dirty) water.

Announcing our newest water project that is home to 3,673 people.

Mapinduzi Village - Water is projected to flow by this November!

A HUMONGOUS "Thank You" goes out to an extremely generous Water 4 Mercy friend who is funding Mapinduzi Village's water project **ENTIRELY**.

[More details to come in our next newsletter](#)

Maseya Village

Villagers currently hand-digging small holes in dry riverbeds in search of contaminated water.

Maseya Village - 3,758 villagers are in need of clean water.

With your help, Maseya villagers can get clean water as early as this October.

Donate now to our \$25,000 Matching Challenge for Human Dignity.

Huzi Village

Clean water - the smiles say it all.

Huzi Village - 4,323 lives are now improving with life-saving clean water.

Water Project **Completed** - July 2020 - Even COVID-19 issues didn't slow us down.

[Funds needed for Drip Irrigation](#)

Ndebwe Village

Ndebwe Village - Water Project **Completed** - On Easter Sunday April 2019, water taps were turned on and clean water flowed for the very first time for Ndebwe's 4,516 villagers.

Flowing water taps that are nearby - Yippee!

Funds needed for Drip Irrigation

Mwinyi Village

Reaping the rewards of optimal farming.

Mwinyi Village - Water Project Completed - Oct 2018

Mwinyi Village - Drip Irrigation Completed - Dec 2019

Self-Sustainable - Water, Food and Hope for 2,443 persons.

Photos of Mwinyi villagers' bountiful crops for eating and to sell at market

WaMSA - Water 4 Mercy School of Agriculture

WaMSA's optimal transfer of knowledge.

Water 4 Mercy Schools of Agriculture

WaMSA's multi faceted and holistic solutions will eradicate thirst, hunger and poverty by sharing Israel's innovative and advanced water and agricultural technologies.

The WaMSA Training, Development and Research sites are

specifically designed to benefit surrounding communities, farmers, governments, researchers, commercial industry, international trade, etc., and set up as profit-centers. Food knowledge and food production will transform and enable Africa to be self sustainable in a 3 to 5 year time span.

Funds needed for Dodoma's Animal Husbandry Component & for additional WaMSA locations throughout Africa

WaMSA - Extension & Multi-Faceted Services

WaMSA Extension & Multi-Faceted Services:

- Huzi Mango Orchard Cooperative
- Vineyard Hombolo Cooperative
- Kidoka Community Irrigation
- Student Exchange Program
- Executive Exchange Program

Impact Investment Opportunities still available

The Optimal Team - The Optimal Solution

The Optimal Team

The Optimal Solution

Many lives are being transformed.

Thank you for your **HEART** and for your generous support - look what **GOD** has done in **2 years!**

Together we can *Repair The World - TIKKUN OLAM*

Water 4 Mercy is a 501(c)3 - Your Donation is Tax Deductible
