

GENE XCELLENCE

2025-2026

CAREER EXCELLENCE PROGRAM

DISCOVERY

Students will take surveys and assessments to learn their interests, strengths, and weaknesses to find the career that is right for them.

EXPLORATION

Students have a chance to explore common careers as we dive into exploration activities in Health Care, Entrepreneurship, STEM, and Creative Art careers.

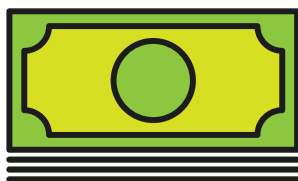

DEVELOPMENT

Students will learn how to become the professional that conquers the workplace by learning to write emails, etiquette, and overall, how to present themselves.

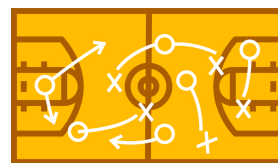

RISING FRESHMEN

The transition to high school just got a little easier. Students will get an understanding of the different resources and opportunities available to them.

GX BUCKS

Students can play big and win big! They will be rewarded for their good grades, leadership, participation, and much more! And they will be able to win prizes!

GAME PLAN

Ready, Set, GOAL! In students' final project they will demonstrate what they learned about their career, their accomplishments within the program, and their high school vision.
