A statement from Dane PCG on the current COVID-19 crisis

NEW YORK, NY March 16th 2020 — The Dane team recognizes that COVID-19 is presenting a host of challenges for communities across the nation. We also know that these are times when community and mutual support will mean the most.

The affordable housing and multifamily industries have a unique set of issues to negotiate regarding COVID-19, including employing the best means possible for containing the spread of the virus. While we take measures to ensure the safety and wellbeing of our employees and their families in all our locations (NY, NJ, NC, GA, FL, and TX), so too do we extend a helping hand to each one of our clients, colleagues, and partners across the country.

As you navigate these difficult times, please know that Dane is always available to you. You may contact us directly via email or phone at any time. In the coming weeks, home will take on an ever more important role in our lives, and Dane will do its part to support your efforts to maintain a healthy environment for those who depend upon you.

The Dane family wishes you the best in health and wellness. We are here to serve you as you seek to best provide for your tenants, employees, families, and neighbors.

Regards,
Heidi Burkhart
