

TRAIL AHEAD STUDENTS

Trail Ahead selected 5 students randomly to study their GPA progress as they went through our program. In all 5 cases, each student had a drastic rise in their GPA average. Additionally, parents of these students reported seeing a “huge change in attitude, increase of friend network and confidence.”

POSITIVE IMPACT

We asked 50 parents to conduct a quick survey asking how they would rate the Trail Ahead program and how they believe it has impacted their child. 94% indicated that the program had significantly/moderately impacted their child in a positive way.
