

Take It Off or Kit Up

*Playing naked saves lives.
So does being prepared.*

We all love our dogs. We would never intentionally do anything to hurt them. They are family. The Naked Dog Project was created to educate and share important information on playing and living without collars. Even if you choose to play with collars on, we just want to make you aware of what can happen and help you be prepared in case it does.

Be Aware. Be Prepared. Be Inspired.
