

DGS Comments on Planning Board Draft

Page 99: Prioritize use of public land for co-location of housing and other uses, particularly where government agencies design new facilities or dispose of real property.

DGS response: DGS regularly reviews assets to identify underutilized spaces for a variety of public needs. All county projects are required to examine the feasibility of affordable housing per Bill 37-12 - Housing - Capital Improvements Program - Affordable Housing Assessment, and child care facilities per Bill 38-12 - Capital Improvements Program - Child Care Assessment, as a potential co-location. Individual sector plans typically dictate other public facilities. We look forward to continuing this work and the work from the 2018 Colocation of Public Facilities study with partner agencies.
