A LETTER FROM FOWLER HOUSE

# Children are changing. *The world is changing.*

**D**ear Parents, thank you for your interest in Fowler House International High School. This school was not created simply because opening a high school felt like the “next step” for Fowler House. It was created in response to something we have been observing for many years.

Education needs to become more flexible, more humane and more individually responsive if we are going to prepare young people for the future they are actually entering.

Fowler House International High School is designed as a carefully structured international high school centre

that combines internationally recognised curriculum pathways, world-class subject teaching and the warmth, mentorship and daily support of a deeply relational school environment.

We believe teenagers need academic rigour, emotional support, flexibility, accountability, meaningful relationships and opportunities to discover who they are becoming.

Our aim is not simply to help students pass examinations. Our aim is to help them become capable, thoughtful, resilient young adults.

BEYOND ACADEMICS

# A child can be *well prepared* without being pushed too hard.

At Fowler House, education extends beyond academics. Teenagers still need movement, creativity, music, challenge, friendship, leadership opportunities and meaningful real-world experiences.

PREPARING FOR ADULTHOOD

# We are not simply preparing students for examinations. *We are preparing them for adulthood.*

Many traditional career paths are evolving. New industries are emerging. Success increasingly depends on adaptability, communication, critical thinking, creativity, resilience, and the ability to solve problems independently.

<p>01 / 06</p> <h2>Confidence</h2> <p>A grounded sense of self and capability.</p>	<p>02 / 06</p> <h2>Self-awareness</h2> <p>Knowing one's strengths, edges and direction.</p>	<p>03 / 06</p> <h2>Critical thinking</h2> <p>The habit of thinking before reacting.</p>
<p>04 / 06</p> <h2>Creativity</h2> <p>Imagination paired with practical making.</p>	<p>05 / 06</p> <h2>Initiative</h2> <p>The instinct to begin without being told.</p>	<p>06 / 06</p> <h2>Capability</h2> <p>The ability to engage with the world meaningfully.</p>

*Qualifications matter. Becoming — matters more.*
