

Requisition....

Modah Ani for all that is in me
When patience abounds
Wonderous music resounds
Requisition comes in many forms and styles
Creative collaboration across the miles

Breathe, create the powerful pause
Allowing energy to migrate to its cause
Focus your attitude
With gracious gratitude
Overcome obstacles with kindness
Thoughts allow for a more fluid process

Yes, reach up and out
Then get quiet and feel about
The frequencies are real
Even when they seem concealed

Just keep trusting and tapping in
Let the magnificence begin
Much more is happening than you know
Remember, stay in the flow

Fill yourself with joy
Commitment to service is how to enjoy
The ups and downs of others who struggle
Get close with those you love and snuggle

That heart to heart hug
Vibrates energy and fills the plus
For healthy energy to come and go
Now you smile and walk with a glow

We love you, we do
Just ask.... We will come through!
