

Environment Policy

Introduction

Coastal Constructions (VIC) Pty Ltd recognises its legal, ethical and moral responsibilities to ensure minimal impact to the environment when conducting business. To the best of our ability, we are committed to providing environmentally sustainable workplaces for our staff, contractors, members of the public and out customers. As Coastal Constructions (VIC) Pty Ltd is committed to undertaking its business in a manner that recognises the importance of the environmental protection and sustainability we set out to achieve the following outcomes.

Policy

- Conduct all operations in accordance with legislation, government policies and planning approvals
- Responsibly minimise adverse environmental effects by operating at an efficient level of performance
- Design and implement new works to responsibly minimise adverse environmental effects and to maximise favourable effects where possible.
- Identifying and managing environmental risks and impacts of our existing and planned operations
- Actively working to minimise our pollution and manage waste
- Conserving our natural and cultural environment and treating natural resources with care

On site, the site supervisor shall ensure that the following effects on the environment are adequately always maintained.

- Where applicable, dust emissions to be confined to the site and to be minimised as far as practicable
- Noisy activities to be minimised as far as practicable
- No contaminated discharges to water, storm water and sewers
- Sufficient bins/skips to be provided for rubbish and waste storage and disposal
