

Boccia Equipment from Boccia-USA.com

Here is what you receive from HANDI LIFE BOCCIA EQUIPMENT!

- All Handi Life Sport's Boccia balls are licensed by BISfed for international competition!
- Handi Life balls hold their shape, roll true and are easier for athletes to control. They last a long time!
- Boccia-USA provides a 5 year guarantee on material and workmanship! If you ever have a ball that comes unstitched, I will replace it. (If you run over it with a car – you are on your own.)
- “Flaghouse, “Gopher”, Expo Star” or “Gravity” balls cannot make these claims. They are lumpy. It depends on the shape of the ball where the ball ends up -rather than the skill of the thrower. The PVC in these balls will deteriorate over time. The stitching will not stay together. These are cheaper. But you get what you pay for.

Mark Flora-Swick is dedicated to advance the Sport of Boccia and provide outstanding customer service. Mark@boccia-usa.com 913-205-7034

Please note the following

- The balls will soften over time. Fresh out of the box they will need to be warmed up. Roll them across a court or gym floor several times.
- The balls can be cleaned with damp cloth. Do not immerse in water.
- There are small numbers under the trademark. **These do not mean anything to the end user.** They are manufacturer notations and may be different from ball to ball of the same hardness.
- Sometimes it is helpful to number or mark the balls with a pen or marker.
- **Do not mark across a seam, cover the trademark, or the Bisfed stamp.**

I have been a coach for 23 years and have led clinics across the USA, teaching others this great sport. If I can be of assistance at some point in the future. Let me know.

Blessings!
