

SEX EDUCATION MATTERS

A curriculum written in 2013 by Deakin University Melbourne for the training of teachers and on pages 83 & 84 there is a questionnaire where the student teachers are asked to answer questions in a reverse role situation about being heterosexual from a homosexual perspective.

However when reading through this document it is nothing more than apostatizing people to accept a sexual orientation.

Below is a list of questions, they are as follows:

1. *What do you think caused your heterosexuality?*
2. *When and how did you decide you were a heterosexual?*
3. *Is it possible that your heterosexuality is just a phase you may grow out of?*
4. *It is possible that your heterosexuality stems from a neurotic fear of others of the same sex?*
5. *If you have never slept with a person of the same sex, is it possible that all you need is a good lesbian/gay lover?*
6. *Do your parents know that you are straight? Can't you just be who you are and keep it quiet?*
Why do heterosexuals place so much emphasis on sex?
7. *Why do heterosexuals feel compelled to seduce others into their lifestyle?*
8. *A disproportionate majority of child molesters are heterosexual.*
9. *Do you consider it safe to expose children to heterosexual teachers?*
10. *Just what do women and men do in bed together? How can they truly know how to please each other, being so anatomically different?*
11. *With all the societal support marriage receives, the divorce rate is spiralling. Why are there so few stable relationships among heterosexuals?*
12. *Statistics show that lesbians have the lowest incidence of sexually transmitted diseases. Is it really safe for a woman to maintain a heterosexual lifestyle and run the risk of diseases and pregnancy?*
13. *How can you become a whole person if you limit yourself to compulsive and exclusive heterosexual behaviour?*
14. *Considering the menace of overpopulation, how could the human race survive if everyone were heterosexual?*
15. *Could you trust a heterosexual therapist to be objective? Don't you feel she (he) might be inclined to influence you in the direction of her (his) own leanings?*
16. *There seem to be very few happy heterosexuals. Techniques have been developed that might enable you to change if you really want to. Have you considered aversion therapy?*
17. *Would you want your child to be heterosexual, knowing the problems she would face?*

The link for this document is easily found.
