About Us

SF Gelateria crafts and serves **Californian artisanal gelato**. We studied the art of gelato at **Gelato University** in Bologna, Italy. We've traveled the world to get inspiration for new flavors. We **consciously source local fresh Californian** dairy, fruits, nuts and herbs. Every flavor is crafted in **small batches** from scratch and we believe all of this is essential for the exquisite smoothness and rich flavor of the SF gelato experience. We aim to tickle your taste buds, nourish the body, and be good to our planet.
