

BURRY MOTOR BODIES LTD

AFTER CARE GUIDE

LOOKING AFTER YOUR BODYWORK

With over 35 years experience in the industry, and a passion for cars, we want to help you keep your pride and joy looking as good as the day it left the bodyshop.

Please leave us a review on Google and/or Facebook - word of mouth is our best advert!

TOP TIPS

INITIAL CARE

As below, plus:

- Do take extra care washing your car for the first 3 months - the paint needs time to harden
- Don't use wax or polish for 3 months - the paint needs time to breathe

ONGOING CARE

- Do not use a machine car wash!
- Do use a neutral pH car shampoo and soft, clean sponges / wash mitts
- Do clean bird droppings off ASAP - they are corrosive
- Do use a professional detailer to really make it shine and get rid of any swirl marks - remember to tell them if it's recently had paint done
- Do wax your car at least twice a year - if the rain doesn't run off then it's time to wax
- Don't get too close with a pressure washer!
- Don't park under lime trees in spring - their sap can damage paint in sunlight
- Don't use a car cover - unless it's a fancy climate controlled car cocoon
