Ambulance Vehicle Bid**

**Clarifications to Invitation to Bid & Specifications**

**Date:** July 29, 2019

**Clarification 1:** Chassis and Module Exterior Color

The truck chassis exterior paint color: Bullet Silver Metallic  
Section 21.5 Paint Color: The module color shall be 100% color match to the chassis OEM color.

**Clarification 2:** C. QUALITY AND TESTING:

QUALITY MANAGEMENT SYSTEM REGISTERED (*reference page 5.*)

The purpose of the specification for ISO 9001 QMS is to demonstrate the manufacturers ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements. The ISO 9001 QSM aims to enhance customer satisfaction through the effective application of the system, including processes for improvement of the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

The Agency will take under consideration alternative quality management system programs so long as the Bidder provides sufficient documentation outlining the QMS program. In order for an alternative QMS program to be taken under consideration as sufficient, the program must include an evaluation or certification process from an independent organization. Organizational memberships without an evaluation or certification process will not satisfy this requirement.

**Clarification 3:** C. QUALITY AND TESTING:

CRASHWORTHINESS (*reference page 7.*)

Safety is the Agency's first concern and is a primary objective for modular ambulance vehicle production under these specifications. The purpose for the specification of crash worthiness of vehicle demonstrated through a minimum of two actual crash tests of modular body was to provide inside and assurance of the protection offered by the manufactured vehicle and ambulance module.

The Agency will take under consideration alternative crashworthiness testing process so long as the Bidder provides sufficient documentation outlining the testing method and result. In order for an alternative crashworthiness testing process to be taken under consideration as sufficient, the program must include an evaluation or certification process from an outside independent organization. Organizational memberships without an evaluation or certification process will not satisfy this requirement.
