COVID 19 Risk Reduction Actions

Our organization is proactively taking actions to safeguard the health of our employees and our customers due to the COVID 19. Specifically, we are:

- Reviewing each crew member to ensure that they are not exhibiting any symptoms.
- Taking the temperature of every crew member each day prior to each departure.
- Using single use disposable cups, plates and cutlery.
- Disinfecting the plane prior to every trip.
- Instead of shaking hands, bowing for a greeting.
- Attempt to prevent any personal contact.
- Allowing customers to embark as **early as possible** to limit exposure to others at the FBO. Please call us when just prior to arriving at the FBO.

Our Customers need to be aware that we **WILL NOT fly** individuals or groups that came with the individual, if any individual:

- ❖ Shows symptoms of a flu or the virus.
- ❖ Has a cough.
- ❖ Passengers will be asked to verbally confirm that they have not had, to the best of their knowledge flu like symptoms, or a fever in the last 7 days.
- ❖ Refuses the mandatory contactless infrared thermometer temperature check.
- ❖ Has a fever of 100.4 from the infrared thermometer temperature check.

If you or anyone of your party, preparing to fly with us, is displaying cold or flu like symptoms we ask that you postpone your flight and stay at home where you can safely follow quarantine procedures and recover.

Customers are advised it is their responsibility to comply with local ordinances, state, or national laws with regard to their arrival, location they are arriving from, applicable quarantine requirements and regulations aimed at reducing the spread of the virus. Be advised that regulations may change daily.

Cancellations for medical safety are not entitled to a refund. We thank you for your patience and understanding and look forward to your next flight with us.
