Within each breed, the sale order will be Champion Ewe, yearling ewes, fall ewe lambs, spring ewe lambs, Champion Ram, yearling rams, fall ram lambs, spring ram lambs. Within each class, animals will be sold by the order of their placing in the show.

HEALTH AND SOUNDNESS: All animals will be rigidly assessed by the culling committee and/or the attending veterinarian and culled if necessary. Please inspect your animals carefully at home. The CSBA and the veterinarian do their best to ensure the health and soundness of animals during the selection at the show, they are not liable for conditions that may arise after the event.

The following list outlines some of the undesirable physical traits will serve as cause for an animal to be culled but does not exclude other reasons that an animal may be culled.

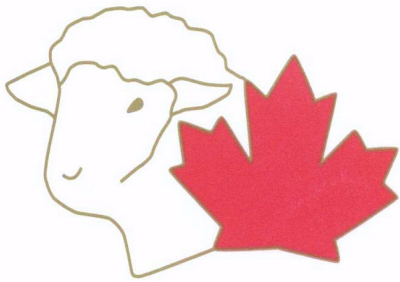

The veterinarian on site will assess the animal for:

1. Lameness
2. Presence of external parasites
3. Orf lesions
4. Abscess
5. Entropion
6. Scrotal malformation: will include palpation to ensure uniform testicles, the presence of epididymides, and scrotal circumference review
7. Body condition score of 3 or more
8. Any other condition that concerns the veterinarian

The Classic selection committee will assess the animal for:

1. Malocclusion / Dental Alignment
2. Tails must be docked at the end of the caudal fold **and must cover the anus**
3. Excessive wool length
4. Any other condition that concerns the committee including extreme conformational issues (ex. collapsed pasterns, poor hind end structure, etc.). Examples and photos of non-desirable traits can be found in CSBA's Conformation Booklet.

The CSBA Classic committee is authorized to settle any and all disputes regarding culling and to interpret the rules. The committee culls based on health and sale standards, not breed standards. Their decision will be final. All animals that have been culled must be immediately removed from the sale facility.
