

Manitoba Provincial Report

Manitoba had a good year in 2023, several purebred breeders assisted with the show and sale and many others exhibited and purchased animals. The online portion continues to grow in popularity with a first this year as a ram was bought by a producer in the states and successfully exported. We also had buyers from Saskatchewan and Ontario online.

We continue to promote the benefits of using a purebred sire in flocks of all types, alongside Manitoba Sheep Association through seminars and educational events.

We are looking forward to this year's sale, and hope it will continue to grow the interest in good quality purebred stock, within our provincial flocks.
