CardioDiagnostics

SECURE, FAST ECG-PROCESSING & REPORTING USING OUR LIFESENSE MINI DEVICE, CLOUDBEAT SOFTWARE, AND MONITORING SERVICES

SUBSCRIPTION PLANS INCLUDE

MONITORS AND PHONES
All subscription plans include reliable, ready-to-use monitors and phones with Surelock installed.

24/7 MONITORING AND SUPPORT
Our US-based technicians and business professionals are ready to support you anytime of the day.

SECURE CLOUD STORAGE
We make security our top priority when storing your sensitive information on the cloud.
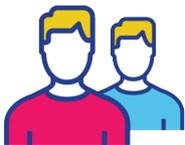

STAFF TRAINING
We provide in-person training and support to ensure your staff is fully knowledgeable and ready to use our products.

CLOUD-BASED PLATFORM
Our online platform is accessible from any internet-connected device.

MEDICAL REPORTS
All our medical reports are prepared by Certified Cardiographic Tehnicians working in the area of ECG monitoring.

DO MORE WITH OUR CARDIAC MONITORING SOLUTION

HOW IT WORKS

1. PATIENT HOOK-UP
Physician prescribes CardioDiagnostics Lifesense mini for Wireless ECG Monitoring

## 2. PATIENTS LIVE THEIR NORMAL DAY-TO-DAY LIVES
Lifesense mini continuously monitors patients' heart rhythm abnormalities in near real-time

3. MEDICAL PROFESSIONALS MONITOR PATIENT'S HEART
Medical reports are **timely** generated using our HIPPA compliant cardiac monitoring system

4. REAL-TIME ACCESS TO PATIENT DATA
Physicians are able to access reports and make proper diagnoses from any internet- connected device

---
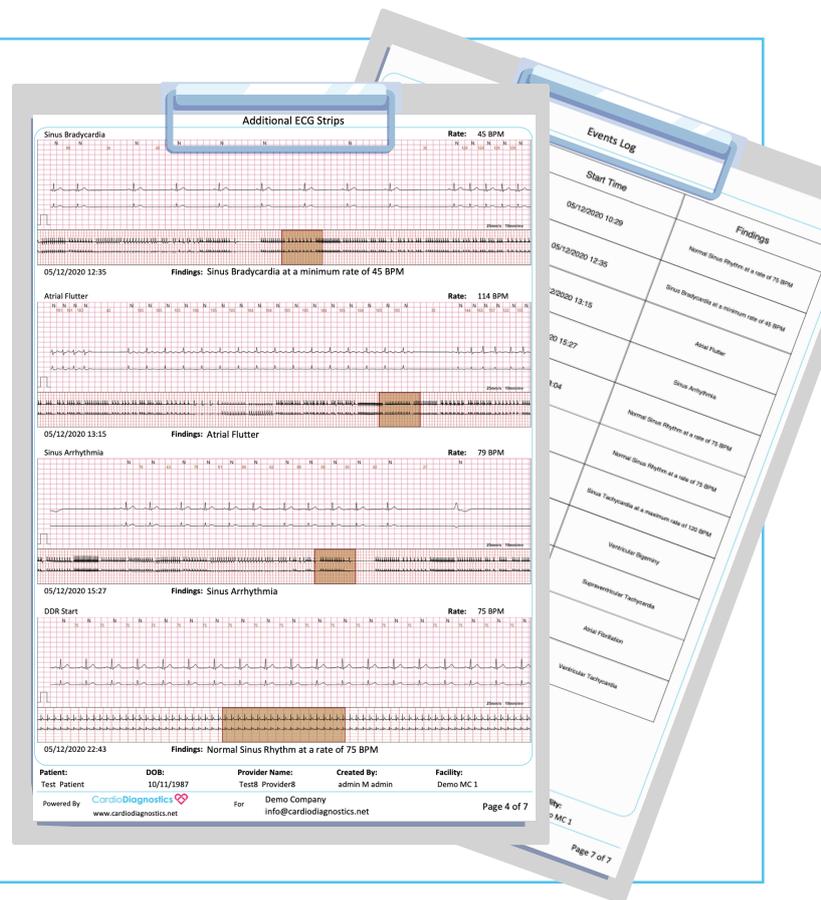

Real-time vital cardiac information anytime and anywhere!

CLOUDBEAT SOFTWARE

SIMPLE & INTUITIVE

The Intuitive Design of CloudBeat is focused on bringing you the ultimate user experience. With very little time, you will be able to view, inspect, and take immediate actions in a systematic and timely manner.

NOTIFICATION PROTOCOLS

Highly trained medical experts constantly lookout for critical patients and top priority arrhythmia detections and notify you according to your own notification preferences when a critical event is detected.

HIPAA COMPLIANT SOFTWARE

Our HIPAA Compliance guarantees no patient data is ever lost. It ensures that all sensitive data is kept safe and secure at all times, under any circumstances. All HIPAA requirements are fully implemented to ensure the confidentiality, the integrity, and availability of patient data.
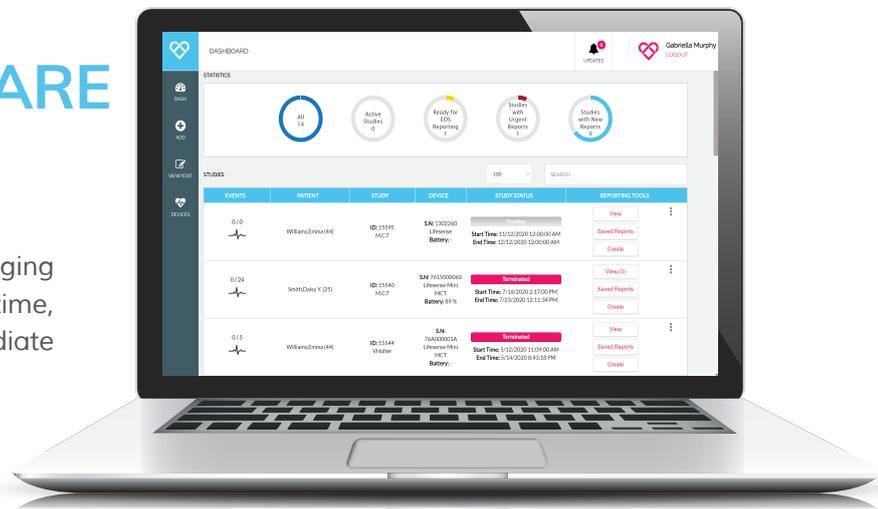

QUICKLY VIEW & EDIT REPORTS

Minimize your time spent reviewing your patient reports with our easy access portal to view all your reports. We provide you with the ability to quickly view, edit, and sign your patient reports on the spot with our advanced reporting tools.

EMR INTEGRATIONS

Our I.T. experts will integrate Cloudbeat into EMRs to provide users with a seamless monitoring experience.

LIFESENSE MINI DEVICE

Lifesense mini is an advanced wireless monitoring device with 4-in-1 Holter, Extended Holter, Wireless Event, and MCT modalities. Lifesense mini uses FDA-cleared proprietary cardiac monitoring algorithms to automatically record, detect, and wirelessly transmit a wide range of cardiac events to our CloudBeat software, for up to 30 days.
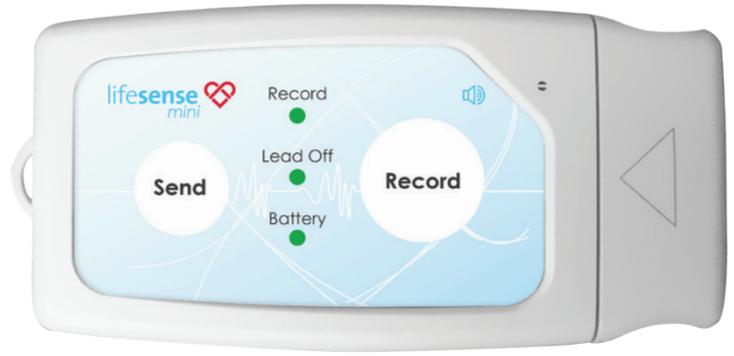

FEATURES

- Continuous Monitoring
- Lightweight
- Pocket Size
- 24/7Support

ACCESSORIES

- 2CH 3Ld 20" cable
- Reusable Patch
- Belt clip & Lanyard
- Mobile Phone
- Sim Card and Data
- Transport case

SPECIFICATIONS

- Weight: 2.1 oz (59g)
- Battery Life: 240 hours
- Battery Charging Time: 1-2 hours
- Near Real-Time Transmission
- Patch or Cable Option
- 1 ,2 or 3 Channel Recordings

MONITORING SERVICES

Monitor your patients remotely with the assistance of our CCT Certified Technicians with 24-hour patient support all year long. Our monitoring services include tailored notification protocols, top priority reports, and detailed end of study reports.

CCT CERTIFIED TECHNICIANS

Our HIPAA compliant remote cardiac monitoring center is equipped with highly-trained medical experts delivering thousands of reports per month. We specialize in ECG monitoring and we take pride in improving patients' lives.

END OF STUDY REPORTS & PRIORITY REPORTS

Throughout a patient study, we keep a close eye on patients with critical events or top priority cases. By the end of a study, we generate a fully comprehensive end of study report for your viewing. For critical events, we notify you along the way and send you priority reports for your viewing.

NOTIFICATION PROTOCOLS

You decide when and how you want to be notified by email or phone call for the top critical arrhythmias we help you identify.

24/7 MONITORING AND PATIENT SUPPORT

Our staff is on standby, ready to support you around the clock, 365 days per year. We are committed to providing you with excellent customer service and patient support.

STAFF TRAINING

We train your staff to enroll and educate patients, answer common questions, add new studies, and navigate through the software. Additionally, we train your staff to use and maintain the monitoring devices.

REIMBURSEMENT

Get paid for your care, bill globally!

The Current Procedural Terminology (CPT) codes as maintained by American Medical Association cover the following:

- Holter "Up to 48 Hours"
- Extended Holter "More than 48 Hours Up to 21 Days"
- Wireless Event Monitoring "Up to 30 Days"
- Mobile Cardiac Telemetry Monitoring "Up to 30 Days"

TYPE	CPT CODE	DESCRIPTION OF REIMBURSEMENT	AVG. REIMBURSEMENT
Mobile Cardiac Telemtery	93228	Professional component of this service and includes review and interpretation of each -24hour cardiac surveillance as well as -24hour availability and response to monitoring events within a course of treatment that includes up to 30 consecutive days of cardiac monitoring.	$25
	93229	Technical component of this service and includes all of the following within a course of treatment that includes up to 30 consecutive days of cardiac monitoring: a. Patient hook-up and patient-specific instruction and education b. Transmission and receipt of ECG c. Analysis of ECG by nonphysician personnel d. Medical chart documentation including daily report, patient and/or physician interaction and response, and summary report at the end of the monitoring episode e. Equipment maintenance. f. All supplies necessary for completion of the monitoring	$650 - $900
Wireless Event Monitoring	93268	Auto-activated ECG rhythm derived event recording with symptom-related memory with remote download capability up to 30 Days, -24hour attended monitoring; includes transmission, review and interpretation by a physician or other qualified healthcare professional.	$230
Holter	93224	External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; includes recording, scanning analysis with report, review and interpretation by a physician or other qualified health care professional.	$93
Extended Holter*	0295T	External electrocardiographic recording for more than 48 hours up to 21 days by continuous rhythm recording and storage; includes recording, scanning analysis with report, review and interpretation. The 0295T global CPT code can be used for submission when all components of work are performed and in accordance with specific payor guidelines for reimbursement including 0296T, 0297T, 0298T, recording includes conenction and initial recording, scanning analysis with report, review and interpretation, respectively.	$260
