

TIMBERLOST VI HOME MAIL BOX DETAILS

Timberlost VI has one approved mailbox style. This was decided upon to maintain the integrity of the subdivision and have some consistency.

- Order from Mail Boss Epoch Design LLC (425) 284-0880 (800)-589-7990
 - 7506 BB. Black mailbox
 - 7121 Post or also the “sleeve” that fits over the wooden treated 4 x4
 - 7144 Spreader - (necessary if you are sharing with a neighbor on either side of you)
- Needed Supplies:
 - 4 x 4 (8') treated fir to fit inside the post(s)...cut into 32". You may want to further treat them with wood preserver. These posts will be what the cement will hold and the metal sleeve (what you order from Mail Boss) will fit over it and be bolted to it.
 - Call (811) for an appointment with Idaho Digline – ‘Call before you dig’. You will receive a ‘ticket’ via email for the utilities to come to your address and confirm it is safe location to ‘plant’ your post
- For installation - Contact Lake Fork Fence Supply LLC - Casey @ (208)634-6893
- House address numbers: Amazon - Reflective Mailbox Numbers...waterproof,
 - Self-adhesive, classic style (3" & 4"). Oladot is the company.
 - The post office has “Rural Customer Delivery instructions”. This will need to be completed and taken to the post office along with your ID. It will take a week after you turn this in before you will receive mail at your home. Our suggestion is not to take this card in until the post is installed! It will take 7 days from that point before you can attach the mailbox. The cement will need to set up.

- Take in your PO Box keys and tell them you want to close your box. They should issue you a refund for time not used!
