

Layered Fabric Assemblage Class

INSTRUCTOR: Vicki Assegued
Vicki4all@gmail.com

Teacher's Note:

Students will learn many techniques for creating a truly unique and stunning art piece, with multiple layers and textures of fabric. The student will create a base, covered with beautiful overlays of fabric, surrounded by shapes that extend outward, giving the piece added shape, dimension and excitement. There will be plenty of demonstrations, both technical and aesthetic. The final piece will hang on the wall. No sewing involved. Perfect for beginning through advanced artists!
