**Nano Tec Tablets**  
(Cetirizine dihydrochloride)

Didn't you feel symptoms relief even after taking allergy medicine?

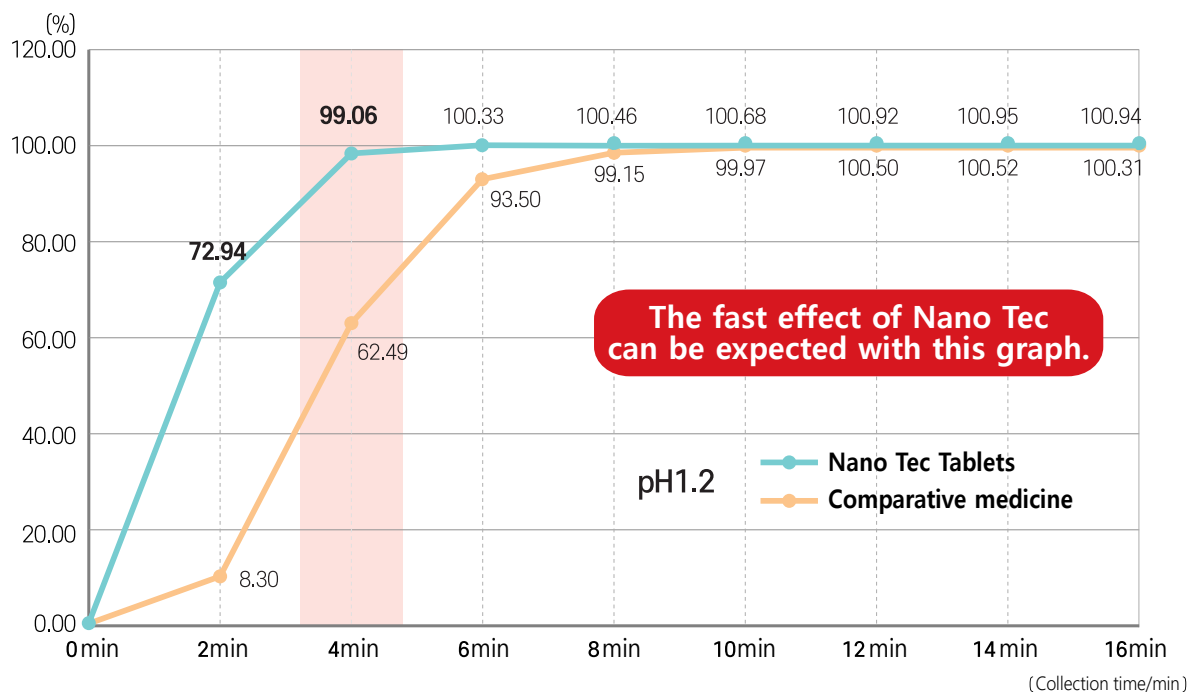

# Relieve symptoms rapidly with Nano Tec.

Nano Tec made with new formulation technology relieves allergy symptoms rapidly by dissolving 99% in 4 minutes.

[ Experimental results of Nano Tec Tablets dissolution rate by time ]

After the start of the experiment, 77.94% of Nano Tec was dissolved in 2 minutes, about 9 times faster than the comparative medicine and 99.06% was dissolved in 4 minutes. So rapid symptom relief can be expected. (comparative medicine 2 minutes 8.30%, 4 minutes 62.49%)

	0min	2min	4min	6min	8min	10min	12min	14min	16min
Nano Tec Tablets	0.00	72.94	99.06	100.33	100.46	100.68	100.92	100.95	100.94
Comparative medicine	0.00	8.30	62.49	93.50	99.15	99.97	100.50	100.52	100.31

**Experimental Method** In accordance with the second law of the Korean Pharmaceutical dissolution test method, put one tablet of 10mg as cetirizine dihydrochloride into 900mL of the dissolution medium and filter it with a 0.45μm filter according to the collection time. This solution is used as a test solution.  
•Dissolution medium:900mL•Dissolution temperature:37 ± 0.5°C•Rotation speed:50rpm•Collection amount:10mL

**Nano Tec that acts rapidly** relieves allergy symptoms such as runny nose, stuffy nose, sneezing, and itching caused by pollen and fine dust.
