Over 30 Years Experience

JILONG is an export-oriented manufacturer of plastic leisure products with over 30 years of experience in R&D, high-quality manufacturing and worldwide sales. Sincerity, Practicality and Innovation has always been our business philosophy. All JILONG Manufacturing facilities are located within specially designated development zones which offer very favorable tax policies, utilities, new up to date infrastructure, and most importantly the major portion of our workforce originates in this zone, therefore lowering employee turnover, increasing a skilled retainable workforce. 100% of JILONG's capacity both manufacturing and component sourcing, is located within 300km of the Shanghai region. In house mass production for PVC sheets, flocking, lamination, printing, welding, filter pumps, metal frames and accessories provides production cost control.

- VERTICALLY INTEGRATED

JILONG completes a vertical chain from producing raw materials to end products. JILONG owns production lines of PVC film, silkscreen printing, high-frequency welding, sewing, and packing.

- WORLD WIDE VISION

JILONG products reach customers including global retailers in more than 50 countries in Europe, North America, Australia, and Asia, etc. With 6 subsidiaries worldwide, we are one of the major suppliers of plastic leisure products globally.

- CREATIVE IDEAS

JILONG's R&D team innovates hundreds of new products every year with superior design, Quality and environmentally-friendly compliance. Requirements of the global market and safety regulations are closely monitored. Various technical parameters of each new product have been tested and verified by the internal professional lab.

SHANGHAI-Head Office

JIANGSU-Facility (154,000m²)

PRODUCTS AND BRANDS

Safety & Quality

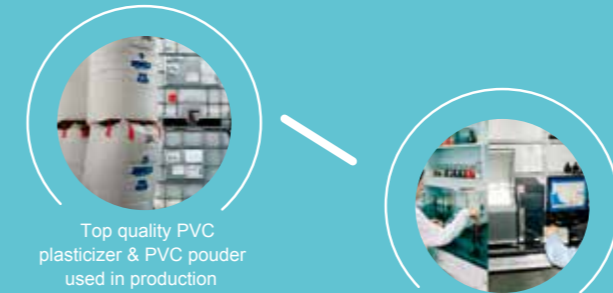

We maintain good cooperative relations with some well-known testing institutions, grasping/and grasp the latest changes in safety regulations to ensure that our products could comply with the laws and regulations of various countries where they are sold, so as to protect the life and property safety of consumers

- 94/62/EC On packaging and packaging waste
- 2011/65/EU Restriction of Hazardous Substances
- 2014/30/EU Electromagnetic Compatibility Directive
- EN 17125 Domestic spas/whirlpool spas/ hot tubs - Safety requirements and test methods
- 2014/35/EU Low Voltage Directive
- UL1563 Electric SPAs Equipment Assemblies, and Associated Equipment
- 2012/19/EU Waste Electrical and Electronic E
- C22.2 NO.218.1-13 SPAs Hot tubs, and Associated Equipment

Quality Assurance

The entire production process adopts a traceable management mode, and records and image acquisition are carried out in the incoming inspection of raw materials, the testing of key controlled substances, product durability experiments, online quality supervision, finished product inflation inspection, shipping and loading containers, etc., to ensure ensure the delivered products could meet the safety requirements and the products are authentic and reliable.

QUALITY ASSURANCE

Top quality PVC plasticizer & PVC powder used in production

State-of-the-art internal lab and close cooperation with external lab to ensure quality of R&D

Durability Testing

Tightly controlled production process

24hr inflation test before packing & random inspection before shipment

Container Loading Records & Photos

The entire production process adopts a traceable management mode, and records and image acquisition are carried out in the incoming inspection of raw materials, the testing of key controlled substances, product durability experiments, online quality supervision, finished product inflation inspection, shipping and loading containers, etc., to ensure ensure the delivered products could meet the safety requirements and the products are authentic and reliable.

SALES And MARKETING

We have over 30 years of experience in inflatables industry to support our global partners.

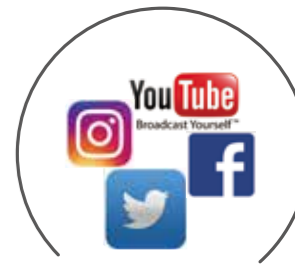

We are constantly upgrading our packaging, sales promotion material, product manuals and other sales tools to service customers around the world, including big retail-chains, internet sellers, distributors, independent shops,etc.

AVENLI SPAS THAT FREE YOUR MIND!

Our reliable, high-performance spas are designed for comfort, efficient energy use, and simple maintenance so you can enjoy the full wellness benefits that come from making a hot tub part of your daily routine. Just a quick 20-30-minute dip counts as exercise...and so much more.

avenli®

COMFORT

The core of Avenli SPAs is Comfort. Dual massage tech helps you stay relaxed and seated even when enjoying powerful jets. Scientifically positioned massage melts your tension away. And related supporting accessories enhance the comfort experience.

INNOVATION

Our SPAs are carefully crafted with the details to awaken the senses. From rich patterns, various series to complete accessories, every element is intended to calm and delight.

PERFORMANCE

To make the most of your spa, it needs to operate at a consistently high level. Each SPA is engineered and built with the strictest attention to quality and efficiency. Our commitment is your assurance of reliable, energy-efficient performance for years.

Triple backflow-proof protection:

There are three mechanical valves designed to prevent water flow back into the working electric parts.

Three different parts of One way non-return valve

Dual Heating System (DHS)

To provide advanced enjoyment, our spa applies a unique dual heating system. The water is filtered and double-heated by the pump with PTC (Positive Temperature Coefficient) and Hydroelectric Separation Structure (HES), and then pumped into the SPA. It ensures rapid heating, stable temperature control, and adequate safety protection.

Effortless Water Treatment

Avenli is an effortless water treatment that combines purified water in addition to providing a unique massage experience via multiple jets. The combination of 3 high-strength filter materials, antibacterial options and energy-saving technologies offer a time saving maintenance solution.

Timer

- Designed with the integrated heater unit built into the wall of the spa, this compact and streamlined inflatable hot tub can be controlled swiftly and easily via the accompanying controller.
- The integrated design reduces traditional pipeline connections, making the SPA look simpler and more elegant.
- The unique patented structure makes your installation easier.
- Double-insulated PTC heating structure, plus leakage protection plug, make your SPA safer.
- The whole series comes standard with the Anti-Freeze function, so that you can avoid the worry of SPA being damaged at low temperature.

• **OPTIONAL CONFIGURATION:**

- **WiFi, let you know your SPA situation at any time.**
- **Three-level massage, allowing you to have a variety of choices at different time periods.**
- **Ozone makes your SPA water more clear.**
