**“Active play has never
been more important to
children’s development
and family life.”**

Jonathan, Diane and Paul Schaffer

We want to take this chance to say how proud we are of our global team, customers and suppliers who, despite having experienced novel challenges this last year, have pivoted nimbly to continue designing, manufacturing, supplying and purchasing activity toys for kids in over 57 countries around the world. This is nothing short of extraordinary and we salute you all.

So much has changed and so much has stayed consistent, while the way we have all done things has definitely changed. We have continued to innovate and create new products, opened new markets, improved our internal processes and continued to grow the business. Some winds have blown with us and some have been head or side winds. Being able to react to bumps in the road is in our DNA.

Generally, the consumer appetite for active play has accelerated the upward trend of recent years. If anything the demand for the quality, safety, value and innovation has increased while the demand for and awareness of sustainability is a space we have always been leaders in. Being specialists in what we do has stood us and our business partners in good stead and even more so for the future.

Thanks once again to all of you, who support us and for whom we work for and with every day.

Best wishes
Jonathan and Diane Schaffer

BUSINESS UPDATE

Paul Schaffer Managing Director, gives an overview on how we've overcome supply chain challenges, why the brand has never been stronger, and what to expect from Plum Play® next.

Changing behaviours

We have seen growth in the amount of time spent within the family home due to the pandemic. This has accentuated the importance of active play, the value of family time at home including working from home and the switch to online purchasing. We have adapted well to the changing landscape whilst continuing to provide our usual services.

Investing in our brand

In the last year we've actively engaged more with our consumers, launching our first ever pop-up concession in Harrods, as well as welcoming athlete Sky Brown to the Plum family - as ambassador for our BOWL Trampoline. We will continue this brand investment and PR push, with new campaigns planned for our industry first products. We can't wait to launch new in-store experiences, working with our partners in our key markets - seeing our pop-up's go international. It's a very exciting time for our brand.

New Product Development

Despite the challenges in a world with restricted travel, our NPD continues to push forward, and Plum® is still leading from the front. Trampoline innovation now starts in our junior collections and goes all the way to our designer range. Our trampoline category now includes industry first features, and our classics have been given a fresh makeover with extra features. Safety of course is paramount to everything we do,

and we continue to exceed the industry standards.

Sustainability, is front of mind when we design and develop our products. This year we launch a new edition to our bestselling, award winning nature play collection, Plum Discovery™. This new edition takes the collection into a new age category, and we will continue to develop these much-loved items to the delight of our customers. Sustainable play has always been a huge part of our values and we will continue to look for new way to make our products, packaging and shipping, kinder and friendlier to the planet.

International expansion

The Plum group consists of three trading entities, being the UK head office, Australia and Hong Kong. We now export to 57 countries and are set to be bigger internationally than domestically this year for the first time in our history. Plum® grew 40% in turnover in 2020 and internationally grew 60%. We plan to continue this fantastic growth and are incredibly excited for what lies ahead.

Overcoming the supply chain disruption

The supply chain pressures around the world are unprecedented. In our case, lead times for deliveries increased and the price of our deliveries have increased since last year. Even when a container eventually lands in the UK, it is uncertain when that delivery will get

to our warehouse. We have quickly adapted to this disruption, continue to find solutions for our customers and have widened our supplier base.

Driving the business forward

Continued growth is what's next for Plum®. We'll be entering new territories in the coming months, and strengthening our brand globally. We plan to increase our offering through our distribution brands and design and develop Plum® items in new play categories. It's integral for us to continue to challenge the status quo of the market and adapt to offer the best solution to our customers.

Managing Director,
Paul Schaffer

PRODUCT HIGHLIGHTS

PLUM DISCOVERY™ ADVENTURE PLAYCENTRE

Plum Discovery™ incorporates STEAM activities and nature inspired play. The adventure playcentre combines educational features and active play, and takes this best-selling collection into an older age category.

INTERACTIVE LED LIGHTS TRAMPOLINES

Plum® best-selling trampolines now have LED lights, children can bounce year-round, from day to night! Light strips are also interactive and flash to music.

BARBARY & SIAMANG PLAYCENTRES

Sunshades, sandpits and stained wood... these compact playcentres are pack full of features for action packed play.

CLIMBING CUBE XL AND ADD-ONS

Due to high demand, the climbing cube is now available with a swing arm add-on and in XL, with even more features for 360 degree play.

PRODUCT HIGHLIGHTS

UNIVERSAL LICENSE

With Jurassic World and Minions movies due to launch in 2022, Plum has a section of licensed outdoor toys for the biggest movie titles of the year.

INDOOR ROLE PLAY

From street food trucks to kitchens with lights and sound, the new Plum® Role Play collection introduce vintage prints and classic colours.

WATER TRAMPOLINES

Not to be missed, our two new water trampolines include patented water jets for a full soaking and mist nozzles that spray a light water mist for long hot summer days.

PRINT & SOUND TRAMPOLINES

Discover Junior trampolines in trend led print and colour with interactive animal sounds.

**EXPERIENCE A
LIFE AT PLAY**

01 02 TRAI WOODEN SWING SAND, WATER & GARDEN PLAY

At Plum® we are dedicated to designing toys for a healthier world and strive to develop affordable, sustainable products with accessibility and ease.

Active play during childhood remains our No.1 priority and as the dangers of screen time become a reality for young children, communicating the benefits of physical play has never been more important.

Insight driven marketing and design is helping us evolve our brand focus to deliver new products and campaigns that are important to the lives of consumers today.

OUR GLOBAL
CUSTOMERS

OUR ETHICAL MANUFACTURING

We are extremely proud to sustainably source and manufacture each element of our products. Our commitment to be kind to the environment goes all the way back to our inception and we continue to celebrate over 30 years of sustainable trading.

Our timber is sustainably sourced FSC™ certified wood

Our North European timber comes from trees that are slow grown for at least 30 years; this timber is heavier and stronger than faster growing trees in warmer climates, ensuring our products are built to last.

The timber is dried, and pressure treated so it is rot and insect resistant. It is free of bark and there are no loose knots. Plum® has been using arsenic free preservatives (CCA free) since 2004.

The mark of responsible forestry

A young girl with a ponytail, wearing a white shirt and green overalls, sits cross-legged on a wooden play structure. In the background, another child with curly hair is climbing a wooden ladder. The play structure is made of light-colored wood with blue handrails. The background is a lush green forest.

OUR COMMITMENT TO SAFETY

OUR COMMITMENT TO SAFETY

Plum® is committed to nurturing creativity and curiosity in a fun yet safe environment. With QA teams in the UK, Hong Kong and China, and a representative on the European Trampoline Safety Committee, Plum® stays at the forefront of cutting-edge toy safety development, giving children the freedom of play and parents peace of mind.

“ We understand the importance of safe play and your child’s well-being is at the forefront of our design process. We pride ourselves on creating toys for childhood development, encouraging a healthy and active outdoor playtime. ”

David Woodman,
Plum® Director of Product Development.
European Safety Standards Committee Member.

Our products are safety tested to:

EN71: All of our products are tested to comply with all relevant European Safety Standards (EN71-1,2,3,8,14).

REACH: All of our materials are tested to meet REACH Chemical Standards.

ICTI and BSCI: All of our factories are audited to these ethical standards.

BEHIND OUR DESIGN INNOVATION

Every day our NPD team of passionate engineers, designers and safety experts work together to bring play to life, improving the lives of consumers so they can enjoy a life at play.

Each of our products are designed for safe play and engineered for high performance. From our smallest sandpit, to our feature-rich role play toys and our flagship Wildebeest playcentre, each one of our designs is engineered to surpass stringent toy safety standards, exceed our quality checks and impress in homes and gardens.

Our in-house design and product development experts continuously improve and innovate, to make our toys the best investment for children and their development. We respond to customer reviews and feed all learnings back into our design process by way of continual improvement.

Materials for style, durability and ease

The design is refined and materials chosen. Play features, accessories and finishings are added and tested for play value.

Product mood boards

Key trends and consumer behaviours provide an essential insight into our development programme. This key research challenges our designer's thinking of how they can tangibly improve the lives of the consumer.

Crafting the form

Different forms and shapes are explored for style and purpose. Discovery allows children to immerse themselves in the natural world.

Made to last

Manufactured and put to the test to surpass stringent European Toy Safety Standards

01

OUTDOOR ROLE PLAY COLECTIONS

Plum® outdoor role play collections include Playhouses, Children's Garden Furniture and award winning nature play from Plum Discovery™.

Inspiring young
minds

discovery

A STEAM and nature inspired collection designed and developed working alongside Forest Schools, Plum Discovery™ brings a feel of the forest into urban gardens. These fun and educational products are ideal for supervised play settings.

TEEPEES

Our collection of Teepee Hideaways make the perfect play base, taking children from their early years into their teens. Made from sustainably sourced natural timber, Plum® Teepees are available in three different sizes.

COLOURS BY PLUM®

The Colours by Plum® wooden garden furniture collection comes pre-painted for convenience in a unique stylish colour palette. This vibrant collection provides fun filled activities for social play dates and garden picnics with friends.

discovery

Discover creative, adventure and messy play to inspire a love of nature and engage children in STEAM education in the early stages of childhood. We have developed a range that provides the tools for little ones to explore and tinker in the garden. Working alongside Forest Schools we've created products that build skills and interests that serve children throughout their school years.

Pre-painted for convenience in a teal wood wash with a whitewash trim finish
Showerproof apex style roof and air holes allow for ventilation
Assembled size: L130 x W97 x H140cm

02

SPRINGSAFE™ ACTIVE PLAY

With over 1 million sold worldwide, Plum® trampolines are the smartest, safest option for the ultimate bouncing experience! Plum® has a range of market leading trampolines that combine innovative safety features with cutting edge technology and patented designs.

Fun for the
whole family

Springsafe™
technology

What makes our trampolines Springsafe™ ...

We recognise the concerns of injury caused by trampolining. To provide the best bouncing experience for our users we have developed Springsafe™ technology and features. The Plum® Springsafe™ design confronts two important safety issues; injury caused from contact with springs and injury caused from strain on the joints.

Springsafe™ ensures that users are always out of reach from springs and frame parts, and we use high performance springs on all our trampolines to provide an even and controlled bounce that is kind to joints.

Springsafe™ Enclosures...

1G Trampoline Enclosure Net: Features an outer net to maximise jump space on junior trampolines, and uses pad to mat Springsafe technology to separate the jumper from the springs and frame.

2G Trampoline Enclosure Net: Uses net to mat Springsafe technology to separate the jumper from the springs and frame.

3G Trampoline Enclosure™ Net: See details below for our patented enclosure.

Do you know your springs...

The length of a spring determines bounce performance. We use different length springs on our trampolines to suit the user and their required bounce. Long springs on larger trampolines give a softer, but more extreme bounce. Whereas shorter springs give a more controlled and smaller bounce, making them ideal for our Junior trampolines.

Spring testing for play endurance...

We test every batch of springs we receive with a salt spray and lifecycle test. During the lifecycle test we stretch and release the spring on a 30,000 cycle to ensure long lasting safe play. We salt spray our springs to ensure the galvanised steel has guaranteed rust resistance.

Springsafe™
technology

Our Trampoline Design Patents

3G Trampoline Enclosure™ Net: Uses net to mat Springsafe™ technology to separate the jumper from the springs and frame. The patented 3G enclosure attaches to the enclosure poles to maximise the jump space.

Tramp Klamp™: Secures the frame at the trampoline joints adding stability.

Bungee Secure Clip: Fastens FLX bungees to the BOWL Trampoline™ frame.

Telescopic Enclosure: Allows the enclosure net and poles to be quickly packed down at the end of play when the trampoline is not in use.

A young girl with long dark hair is captured mid-jump on a trampoline. She is wearing a colorful, rainbow-patterned tank top and blue denim shorts. Her body is covered in water droplets, and a large splash of water is visible around her. The trampoline has a black safety net and blue support poles. In the background, a two-story brick house with a red-tiled roof and several windows is visible under an overcast sky. The overall scene is dynamic and playful.

TRAMPOLINE COLLECTIONS

Animal themes continue to inspire children's products; from home décor, to stationary, childrenswear and now outdoor play. We've selected our favourite children's fashion and lifestyle trends and applied bold, fun prints to our trampoline collection. Each trampoline has four themed sounds that are activated when children bounce.

Interactive lights are now available in the Plum® trampoline range. An LED light strip encircles the enclosure, perfect for year-round play. Lights have multiple settings for speed, sequence, and colour. An audio sensor is also included, which means LED lights flash in time to music and react to the sounds children make whilst bouncing.

An interactive LED lights strip encircles the safety pad, which can be set to multiple combinations and uses sound activation.

Cool Mist innovation has now been added to our bestselling trampolines!

The mist innovation simply hooks up to a hose pipe and sprays a light water mist into the bounce space.

Our patented water jets bring fun filled water play onto a trampoline! As children bounce, the water jets move with the child to ensure a full soaking!

Mix and match colours and customise play with our reversible trampoline safety pads and colour pop enclosure foam sets.

From age 3 years to advanced adults. The BOWL Trampoline is designed to provide a safe space, to be the first trampoline for the youngest jumpers, right through to being the safest space for advanced athletes.

separates the jumper from the
Steel frame double galvanised
rust free protection

Black powder coated steel for
rust protection

Double sided extra thick PVC
weatherproof materials

Enhanced EVA enclosure pole

Super-soft polyester enclosure

09

PLUM® WHIRLWIND SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

8ft - 30191, 10ft - 30192,
12ft - 30193, 14ft - 30194

Contemporary, neon swirl effect enclosure

Patented Tramp Klamp™ bracket for added
stability and strength

Springsafe™ patented 3G trampoline enclosure™
separates the jumper from the springs and frame

Steel frame galvanised inside and out for protection
against rust

Safety pad and enclosure foam are made from
weatherproof materials

PLUM® SPACE ZONE II SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

8ft - 30211, 10ft - 30212,
12ft - 30213, 14ft - 30214

Classic, stylish trampoline and enclosure

Patented Tramp Klamp™ bracket for added stability and strength

Springsafe™ patented 3G trampoline enclosure™ separates the jumper from the springs and frame

Steel frame galvanised inside and out for protection against rust

Safety pad and enclosure foam are made from weatherproof materials

PLUM® SPACE ZONE V3 SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

8ft - 30217, 10ft - 30218,
12ft - 30219, 14ft - 30220

Classic, stylish trampoline and enclosure

Patented Tramp Klamp™ bracket for added stability and strength

Springsafe™ patented 3G trampoline enclosure™ separates the jumper from the springs and frame

Steel frame galvanised inside and out for protection against rust

Safety pad and enclosure foam are made from weatherproof materials

DESIGNER PACK DOWN TRAMPOLINES

Pack down trampoline innovation allows families to neatly put away their trampoline when not in use. Plum® pack down enclosures can be easily taken down and covered at the end of the day or in adverse weather conditions.

PLUM® SPACE ZONE II EVOLUTION SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

8ft - 30236, 10ft - 30237, 12ft - 30238, 14ft - 30239

Patented quick and easy clip down enclosure with cover that conceals the trampoline when not in use

Cover protects the vital safety components; net, pad and mat from weathering, wind and UV sunlight degradation, increasing longevity

Patented Tramp Klamp™ bracket for added stability and strength

Springsafe™ patented 3G trampoline enclosure™ separates the jumper from the springs and frame

Steel frame galvanised inside and out for protection against rust

PE safety pad and easy to remove enclosure foam are made from weatherproof materials

Easy to remove enclosure foam allows the trampoline to be packed down and covered effortlessly in changing weather conditions.

The pushpin mechanism comes with a handy tool to pack down the enclosure in seconds.

PLUM® LATITUDE SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

8ft - 30225, 10ft - 30226, 12ft - 30227, 14ft - 30228

Fluid shape, innovative engineering and contemporary colour scheme

Supplied with protective cover, anchor kit and trampoline ladder

Enclosure easily folds down for weather protection

Solid steel top rim can be dropped in high winds without disassembly of whole trampoline

Patented Tramp Klamp™ bracket for added stability and strength

Springsafe™ 2G trampoline enclosure™ separates the jumper from the springs and frame

The unique door entry system has no zips that can fail, keeping users safe and secure as they bounce

Thicker gauge steel frame, which is white powder coated and galvanised inside and out for rust free protection

Double sided extra thick PVC safety pad made from weatherproof materials

Enhanced EVA enclosure pole foam

Simply unhook the top rim from the enclosure poles on the Plum® latitude trampoline

This allows you to pack down the enclosure net and easily cover the trampoline safety pad, mat and net when not in use.

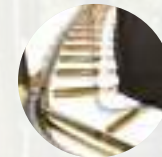

SHAPES TRAMPOLINES

Get a performance trampoline from the Plum® Shapes range. These high-end trampolines have the longest springs, thicker safety pads and durable UV treated jumping mats. In oval, rectangular and square, just like Olympic and competition trampolines, Plum® Shapes give an impressive bounce.

DESIGN FEATURES

Alternative shapes to traditional circular garden trampolines to maximise the jump space and increase bounce height

Longer and thicker galvanised steel springs for the best bounce performance

High-end weatherproof materials in an all-black finish, include powder coated steel legs for longer protection against rust

PLUM® OVAL SPRINGSafe™ TRAMPOLINE AND ENCLOSURE

16 x 11ft - 30245, 14 x 10ft - 30272

Oval shape gives our biggest spring to increase performance

Springsafe™ 2G trampoliner keeps the jumper from the springs

The unique door entry system fails, keeping users safe and sound

Steel frame double galvanized rust free protection

Black powder coated steel rust protection

Thick PVC safety pad made from macramé materials

Enclosure poles covered with hardwearing XPE foam

Extra thick top rail for frame strength

PLUM® 11FT SQUARE SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

SPRINGLESS TRAMPOLINES

The Woven Elastic Bounce offers an alternative to our spring-based trampolines.

DESIGN FEATURES

Like our spring-based trampolines the bungee webbing gives a soft, safe, vertical bounce, protecting strain on children's joints

Our Springsafe™ design separates the jumper from the frame parts

This springless trampoline has a larger jumping mat, 20% bigger than traditional circular spring-based trampolines

PLUM® WEB SPRINGSAFE™ TRAMPOLINE AND ENCLOSURE

Woven Wlastic Bounce
10ft - 30375

- Black stylish finish with sports appeal
- Patented elastic web design gives new bounce performance, replacing traditional metal springs
- Springsafe™ trampoline enclosure™ separates the jumper from the springs and frame
- Steel frame double galvanised inside and out for rust free protection
- Black powder coated steel for style and additional rust protection
- Thick PVC safety pad made from weatherproof materials
- PVC covers protect the enclosure foam

IN-GROUND TRAMPOLINES

Seamlessly sink a trampoline into the lawn to maximise garden aesthetics and create open play.

DESIGN FEATURES

Plum® In-ground trampolines now come with a safety enclosure net to protect children from the hard ground during play

We fit our in-ground trampolines with a retaining wall to protect the in-ground jump space from soil and dirt

Comes with a cover to protect the safety elements when not in use, to preserve the life of the trampoline

PLUM® IN-GROUND TRAMPOLINE AND ENCLOSURE

8ft - 27557, 10ft - 27558, 12ft - 27559

Specifically engineered for sinking into the ground

Retaining wall prevents soil and debris falling underneath

Supplied with protective cover

Thicker gauge steel frame double galvanised inside and out for rust free protection

Thick PVC safety pad made from weatherproof materials

Unique vented safety pads provide superior bounce performance

Now supplied with an enclosure net due to new safety standards

PLUM® IN-GROUND TRAMPOLINE AND ENCLOSURE

Square: 11ft - 30253

Specifically engineered for sinking into the ground
Retaining wall prevents soil and debris falling underneath

Supplied with protective cover

WOODEN SWING SETS

Plum® design and develop swing sets for every stage of childhood. Our best-selling round pole and square cut timber are grown in FSC™ certified sustainably sourced forests. Our wooden frames are made from whole tree trunks, which are stripped of their bark and cut to size, then pressure treated to ensure longevity.

Be kind and friendly to the planet with Plum® FSC™ certified sustainably sourced wood.

The mark of responsible forestry

Square cut timber is hard wearing and versatile and can be cut and sawn into different wood profiles; making it the perfect choice for Plum® playcentres of all shapes and sizes.

Natural properties in round pole timber make it durable and very strong. These strong and striking frames give the feel of the forest.

Ground anchors are supplied with all Plum® Swing Sets to add extra stability during play.

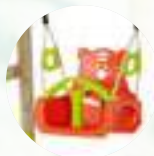

JUNIOR SWINGS

DESIGN FEATURES

Growing frames that adapt as the child grows, support young children as they develop through active play

Blow moulded adaptable swing accessories are designed to help children develop and grown in confidence

BUYER'S GUIDE

With our buyer's guide you can shop all our products by range in one place; allowing you to search by category and collection.

Within this section of our catalogue you can also learn more about our logistics program, in-store POS solutions and online marketing support.

OUR LOGISTICS

Our international network of agents, distributors and sales force mean our global reach maintains a local presence and our flexible routes to market help get our toys to the right place at the right time. With logistics operation teams located in global head offices, our adaptable warehouse working patterns assure we're always ready to meet customer demands.

Direct from our factories

With our Freight on Board (FOB) program you can buy toys direct from our factories. This is the best value way to get our toys onto your shelves. We will support you with product development, sales and order negotiation, production planning, shipping coordination and administration.

Bulk ordering

Choose your toys and we'll make it happen when you place bulk orders directly with us. Our in-house trade support and warehouse teams will promptly process, pick and ship them directly from our head office to your warehouse.

Ordering internationally? Our skilled operations team negotiate the best rates overseas to ensure you get you the best price.

Our dropship program

Our comprehensive dropship program is available in selected countries. Operating from our 25,000m² UK-based distribution centre, we ship over 1,000 orders each day, delivered straight to your customers using our carefully selected delivery partners.

Our UK based dropship team provide full customer support of all listings. The team optimise copy and content, coordinate promotional and marketing activity and provide market analysis.

Operating from our
25,000m²

UK-based distribution
centre

TRAMPOLINES

Plum® Trampolines are supplied boxed. We aim for minimal or zero overhang on pallets for distribution centre compatibility. Customers are advised to note box dimensions for compatibility at automated centres.

Trampolines come in industrial stapled boxes for strength and are banded for security with balanced box weight for stability. Box quantity and item weight are clearly printed on the carton.

Our new 30kg 8ft trampoline offers simple delivery for dropship orders. Meeting courier weight for a one box item, this new design gets you better rates on our best selling trampoline.

ROUND POLE TIMBER

We supply our round pole bound together on custom made pallets. This bespoke solution is ideal when shipping large timber. We store all of our round pole outside in its natural environment, allowing it to breathe and adapt before construction in the garden.

Leg packs and crossbeams are forklift moveable and can be double stacked for transport and storage, with an overhang on all poles.

Hardware is palletised for transport and cartons are double walled for strength.

SQUARE CUT TIMBER

Square cut timber is supplied on pallets. The timber is either packed in netting or is kiln dried and packed in cardboard with a silica gel. Both procedures ensure all timber is free from moisture, with no risk of mould or missing parts.

SLIDES

Our slides arrive stacked on a pallet ready to be picked and bagged easily at source, to be sent via local carrier for home delivery. We supply our goods this way so our customers benefit from freight efficiencies.

IN-STORE SOLUTIONS

Bring the outdoors into your store. We continue to innovate and create convenient retail solutions to help you sell large play items in-store. Complimentary to our one box solutions our POS displays allow your customers to explore a full product range in-store like never before.

Adaptable in-store solutions come in a range of display sizes and can be tailored for product, collection, season, and promotional requirements.

Pop-up shops

Launch in-store experiences with our pop-up concepts. Designs can be tailored for product categories and collections.

Pallet wraps

Retail display board

Available now, our retail display board showcases our extensive range of large activity toys in a small retail space, driving sales in store. Dispensers hold product cards helping consumers select the right toy for them.

Playful gift box

With our playful gift box and FSDU you can beautifully present a choice of active play products in a small retail space. Our great value solution is designed to capture sales in-store directing the consumer to the till, giving your customers a physical gift with the convenience of home delivery.

MARKETING SUPPORT

Create the best product and customer experience

Our team of marketers are here to support you with all the digital assets you'll need, as well as in-store POS solutions.

Selling tools & assets

Available now at a click of a button on our Asset Hub, our imagery, copy and creative content sets us apart in the industry bringing play to life.

Inspiring photography

Our powerful visual storytelling lifestyle photography help us deliver the product experience and sell whilst building a stronger brand.

Crisp cut out photography demonstrates quality and size, and highlights features.

Engaging video content

Build a stronger online presence with our video archive. This now extends from storytelling lifestyle videos to assembly product build clips and customer service advice.

Creative marketing campaigns

Our annual campaign calendar includes new product launches and retail calendar events. Through the Plum® Asset Hub you'll have access to creative content ready to use on Facebook, Instagram, email and your website.

Social Media

Stay active with us on social media, channel specific content is now available, designed to increase engagement as well as product and brand awareness.

Across our channels we can offer the following support to boost sales and service. Collaborative competitions, live promotion referrals, Influencer products reviews, Facebook video ad content, copy guides and trending hashtags, insights and instant customer service.
