

# Share a Matterport Space to Facebook

## Preview Post

Preview your post beforehand to make sure it looks good.

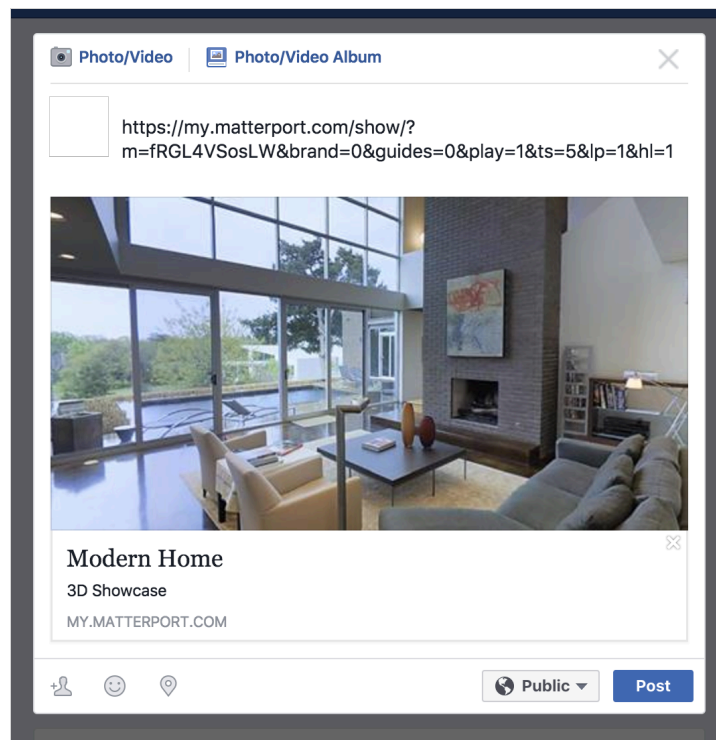

1. Login to [Facebook](#).
2. Open the [Facebook Sharing Debugger](#).
3. Copy and paste the sharing link for the Space and click **Debug**.

A screenshot of the Facebook Sharing Debugger web application. The top navigation bar includes the 'facebook for developers' logo, links for 'Products', 'Docs', 'Tools & Support' (which is underlined), 'News', and 'Success Stories'. On the right of the navigation bar is a search box with a magnifying glass icon and the word 'Search', and a blue 'Register' button. Below the navigation bar, the page title is 'Sharing Debugger'. There are three tabs: 'Sharing Debugger' (which is selected and underlined), 'Batch Invalidator', and 'Access Token'. Below the tabs is a large text input field containing the URL 'https://my.matterport.com/show/?m=wpUhyZx1wMc'. To the right of the input field is a blue 'Debug' button.

## Create a Post

Open [Facebook](#). Copy and paste the link to the Matterport® Space. Click **Post**.

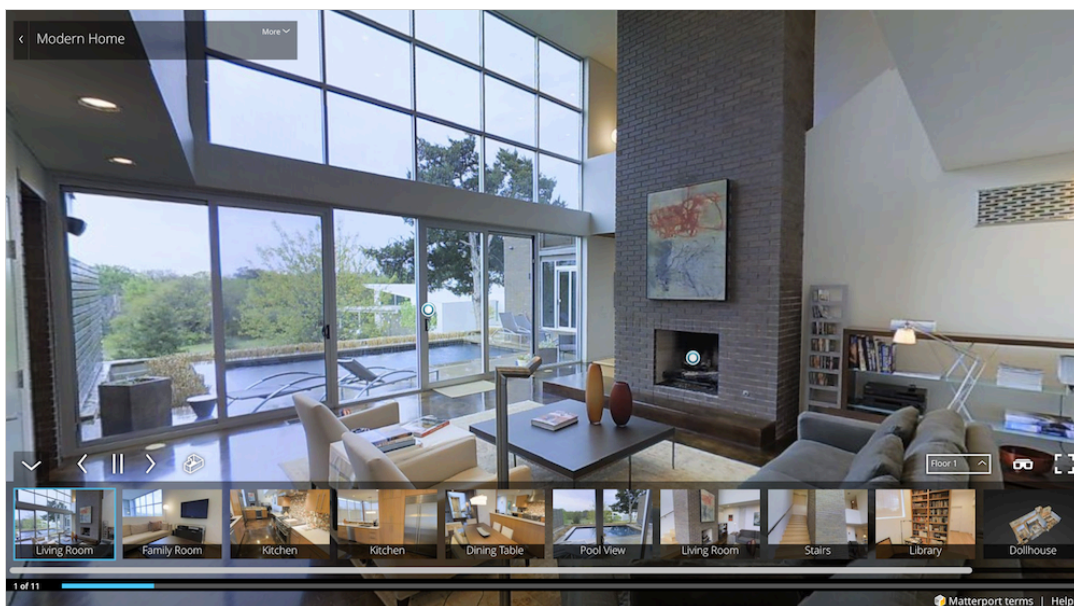

Optional: After the thumbnail image appears, you can delete the URL from the text of the post.

## Click the Link

When people click on the post, a new tab opens with the Matterport Space in full screen.

Currently, it is not possible to navigate through a Matterport Space directly from Facebook.

Another virtual tour that I really like. I love the  
woody setting. Especially the patio, it's great  
house.
