Beginning his career after college in 1992,

Keith Yonick was an interior designer for a large homebuilder throughout the Dallas Metroplex. Keith likes to build relationships with his clients. Many of the families he helped as a designer back then, he has had the privilege of helping those same families with color selections for their new homes recently. He has saved customers thousands of dollars by only changing paint colors, etc., in the home as opposed to having to totally remodel.

Whether it's a newly purchased home or one that you're about to sell, our company is up to date with many current design trends that will remain in style for many years to come. There is nothing worse than spending the money to paint a home to then have that color go out of style a short time later. Our services are very affordable. We charge \$75.00 for a one hour consultation which includes a written report. We also offer bath, kitchen & remodeling consultation at no cost.
