

## Modular Decking for Transportable Homes & Granny Flats

- ✓ No Concrete
- ✓ Adjustable Levelling
- ✓ Rapid Installation

### DOMEBASE™ MODULAR PLATFORM SYSTEM

2m x 2m Modular Panels (4m<sup>2</sup>)

The DomeBase Modular Platform System is a prefabricated structural platform system designed to create level deck platforms without concrete foundations or excavation.

Adjustable Levelling System

Precision-adjustable support system — engineered for simple on-site levelling, with a height range from 140 mm to 240 mm for accurate installation across uneven ground.

Interlocking Connection System

Each modular decking panel is fitted with integrated steel locking clasps that securely connect adjoining panels into one continuous, stable platform.

- ✓ **Rapid installation** without compromising presentation
- ✓ **Precision levelling** for a stable, professional platform on uneven ground
- ✓ **Designed for relocation, reuse and long-term flexibility** as spaces evolve
- ✓ **Premium finish** suited to high-end residential and commercial environments

### IDEAL FOR MODULAR HOME SUPPLIERS

- ✓ Add a decking upgrade to every home
- ✓ Reduce reliance on external trades
- ✓ Faster project completion
- ✓ Deliver a complete, finished product
