Mining Engineering and Project Management Services

Established in 2000, Minesly has provided mining engineering and project management services to mining operations and clients in Australia, USA, Indonesia, India and Spain. Servicing both open cut and underground mining operations, it has also extended its services to exploration, mine design and construction. It is comprehensive in its approach, extending its services to mining technology selection, statutory compliance, environmental and permitting requirements. Minesly seeks to work with its clients to provide differential, sustainable and cost-effective outcomes.

Principal

Wayne Sly (resume attached).

- **Project Investment**

With an extensive knowledge of Australian coal and mineral deposits, opportunities, regulations and procedures, we connect you to the right project for your investment.

- **Mine Feasibility Studies**

We have completed numerous feasibility studies for both greenfield and brownfield projects.

- **Mine Design**

With over 30 years of mine design expertise, we offer practical and efficient design solutions for coal and metallurgical mines.

- **Project Evaluation and Costing**

With an internal database of mine costs coupled with extensive operational experience, mine economic evaluations are undertaken.

- **Due Dilligence**

Minesly Pty Ltd

Website: <https://minesly.com.au>

43 Tamaree Avenue, Wynnum, QLD 4178, Australia

Email: minesly1@bigpond.com

ABN: 54098178137

Due diligence reviews and technical appraisals are conducted for underground projects.

- **Complex Problem Solving**

We are called upon for our technical solutions and complex problem-solving skills based on our practical experience and application of leading technology.

General Mining Projects

Due Diligence – Purchase of Kestrel UG Mine for Rio Tinto 2000, Qld.

Project Management – Kayuga Expansion Project – UG Mine in the Hunter Valley, NSW 2001-2004.

Study and Project Management – Ensham UG Mine Expansion Project at Ensham OC Mine 2004-2007, Emerald Qld.

Mining Engineering Design – Rio Tinto Kestrel Mine Expansion Project 2005-2007, Emerald Qld.

Technical Site Programs – Newcrest Mining (Cadia, Telfer, Wafi-Golpu), Ramu NiCo (PNG Nickel Laterite), India Iron Ore – Various Mines visited.

Metropolitan Mine (NSW Aust.) – Access Tunnel Construction 2010-2011.

Risk Assessments and Compliance Evaluations for the application of TBM's for mine development works – 2012-2013.

Prepare Board Submissions for Capital Projects – BHP, Glencore, Xstrata, 2012-2013.

Study Management Team – 2014 – Mount Thorley/Warkworth Mine Expansion (NSW) and Hail Creek Mine Expansion PFS (Qld) – Client Rio Tinto.

Eagle Downs Mine Construction – 2014-2015 – UG Coal Qld.

Project Improvement Team – Cabanasas Ramp Project, Spain 2016-2017.
