

We've helped clients increase adoption & satisfaction with SAP Ariba by offering fast, and effective enablement & support services

# estrat **SAP Ariba** Support Supplier Enablement & Support Services

Many SAP Ariba customers struggle to enable their supply base quickly due to the challenges each supplier faces, both with initial connection and ongoing transactional support.

Our team of SAP Ariba experts can assist with:

- Strategic flight planning, communication development & outreach
- Registration and relationship establishment
- Transactional support across the hybrid SAP ERP / SAP Ariba Network system

*estrat Managed Services - a modern approach to cloud application support*

## Enable

Develop flight plans & simple communications for outreach. Assist each supplier through the connection process

## Support

Support suppliers via email, phone, & video call as they familiarise with the solution & processes

## Realise

Increase both buyer & supplier satisfaction and results, realising desired collaboration benefits
