

INDUSTRIES WE SERVE

INDUSTRIAL APPLICATIONS

- **Warehouse & Manufacturing Facilities:** Custom steel framing, structural components, and support systems.
- **Storage Solutions:** Heavy-duty steel racks, shelving, and custom storage solutions for industrial use.
- **Energy & Utilities:** Structural steel for oil & gas facilities, refineries, and energy plants.

HEAVY STEEL & STRUCTURAL FABRICATION

- **Commercial & Industrial Buildings:** Custom framing, structural supports, and load-bearing steel components for new construction and renovation.
- **Bridge Structures:** Heavy-duty steel fabrication for bridge beams, supports, and structural elements.
- **Structural Steel for Infrastructure:** Custom steel components for large-scale infrastructure projects, including overpasses, highways, and elevated walkways.
- **Skids & Pipe Racks:** Robust steel frameworks for industrial applications, including equipment mounts and support structures.
- **Security:** Custom heavy steel gates.

CUSTOM & SPECIALIZED STEEL FABRICATION

- **Architectural Metalwork:** Heavy steel components designed for both structural integrity and aesthetic appeal in industrial and commercial applications.
- **Large-Scale Structural Art:** Custom-designed heavy steel art structures that also serve structural purposes.
- **Prototype Steel Builds:** Precision steel fabrication for prototype and custom industrial applications.
