

Financial Analyst - Data Analytics

Delldotto Homes LLC is seeking a Financial Analyst to prepare financial reports and perform basic financial analysis across multiple business lines, including affordable housing, real estate development, and finance lending. The role focuses on compiling and analyzing data to support reporting and business decisions.

RESPONSIBILITIES

- Prepare financial reports for multiple business lines.
- Compile, organize, and analyze financial and operational data.
- Work with structured datasets, data analysis tools, and reporting systems.

REQUIREMENTS

- Master's degree in Data Analytics, Business Analytics, or Finance.
- Graduate GPA of 3.5 or higher.
- Ability to work with structured datasets and use data analysis tools and reporting systems.
