

How to Update IPTV Smarters on Your Android Box

✓ STEP 1: Open Google Chrome

- Go to **Google** on your box
 - When it asks to sign in — tap "✗ No Thanks"
-

STEP 2: Download IPTV Smarters

- In the **top URL bar**, type:
👉 [Troypoint.com/smarters](https://troypoint.com/smarters)
 - Tap "**Go**" or "**Search**" 🔍
 - Scroll down and click the **download link** for IPTV Smarters
 - A message will pop up — tap "**OK**" ✓ to start download
-

STEP 3: Allow App Install

- If a settings screen pops up, look for the **Google logo**
 - Tap the switch to "**Allow installs from Google**" ●
 - Tap **Back** to return to the download
-

STEP 4: Install & Open the App

- Once download is complete, tap "**Open**"
 - Install the app normally ✓
 - When asked, select "**Save as TV**" 📺
-

STEP 5: Login to IPTV Smarters

- Tap "**Login with Xtream Codes API**"

- Enter the **Username, Password, and Server URL** we sent you (Case Sensitive — match it EXACTLY)
-

If You Can't Find the App After Downloading:

- Go to your **File Browser** 
- Tap "**Local Database**"
- Open the "**Downloads**" folder 
- Look for the **.apk** file from Google Chrome
- If you see it, tap to install — follow the same install steps
- If you **don't see it**, go back to **Google Chrome** and download it again

 Anytime you install an app, make sure **File Browser** or **Google Chrome** is turned ON in settings — it will pop up when you try to install
