

# How to Download and Set Up Proton VPN on Your TV, Phone, or Laptop

## 1. On Your Phone (Android & iOS)

### Android:

1. Open the **Google Play Store** on your phone.
2. Search for **Proton VPN**.
3. Tap **Install** to download the app.
4. Once installed, open the app and log in using the credentials below.

### iOS (iPhone/iPad):

1. Open the **App Store** on your device.
  2. Search for **Proton VPN**.
  3. Tap **Get** and install the app.
  4. Open the app and log in with the information below.
- 

## 2. On Your Laptop (Windows & Mac)

1. Visit <https://protonvpn.com>.
  2. Download and install the app for your operating system.
  3. Open Proton VPN and log in with the credentials provided below.
-

### 3. On Your Smart TV (Android TV)

1. Open the **Google Play Store** on your Smart TV.
2. Search for **Proton VPN**.
3. Install the app and open it.
4. Log in with the credentials provided.

*Note: If your TV does not support the Proton VPN app, consider using a VPN-enabled router or connecting through your laptop's VPN sharing feature.*
