

Citizens of Burnett County: Stop this so-called “Campground” development!

On November 3, the **Burnett County Land Use & Information Committee** will vote on a Conditional Use Permit for a **180-unit “campground”** in the Town of Swiss. Each unit would include a 12' x 14' storage shed and deck and could be rented *year-round*. Does that sound like a *campground*?

This plan could **pack as many people as there are in Webster into a 160-acre RV Park**. Webster is **1,140 acres!** It would include a restaurant/bar/event center/shooting range. Why pack so many people into such a small space?

Lakes, roads and trails in our area are already maxed out. If you enjoy peaceful country living in Burnett County right now, that could quickly come to an end.

✓ **Tell County Supervisors to VOTE NO on this project!**

Attend the public meeting Tuesday, Nov. 3, 8:45 a.m.

Burnett County Govt. Center Meeting starts at 9 a.m., Covid-19 screening starts at 8:45

✓ **Your presence is the single best way to stop this development**

For more information, go to PreserveBurnettCounty.com

Paid for by the **Concerned Citizens of the Committee to Preserve Burnett County**, the family and in memory of Erno J. Dahl, who loved Burnett County, fishing, berry picking and the quiet of the woods, and the family and in memory of Herman Preus, tree-planter since the 1930s.

- Our community’s **POLICE** and **FIRE** services are already stretched to the limit
- Danbury (the closest town) has **NO AMBULANCE** service -- wait times for 911 can be 45 minutes
- Your **TAXES** will go up to pay for services to the RV Park
- Additional **permit sales** would not stay in the Township
- **Internet** service and **electricity** are already slow and spotty
- There will be more light, more noise, more activity, more traffic.....
