

8-9-21

Mr. Jon Keller,

I am writing this statement letter for the situation I witnessed on Sunday August 1,2021 at approximately 3:00pm. I was just out for a Sunday ride around the block in my side by side, as I approached the property on the North side of Woodland Pass, I saw a yellowish orange jeep License plate Mn COLE 7, Which I took pictures of his truck parked there, stopped on the North side of Woodland Pass which is Jon Keller's property. I slowed down and saw no one in the jeep. So, I proceeded to drive slowly past a little way and saw a man with a teenager on the property, so I drove onto Jon's property and asked them if they should be there, and the man said this is my son and he started this fire, and I am giving him a talking to about the consequences that could have happened here. I said I don't think you should be on this property. I asked him if he had talked to the owner, and he said (he's like 1000 miles away on a trip) I said yes, I know that. I said to his son did you learn a lesson here and he knotted his head yes. Then the father proceeds to tell me the officer said there has been 4 fires on this property in the last 2 yrs. I said I don't know about that.

(Sorry for the language coming up but that's what he said) Then he says to me I have been told by 2 different acquaintances that the (Fucking Local). here shoot fireworks on this road and nothing is said about that. I said once again I don't think so, he then says to me then someone else does and they get nailed on it. It was something like that for a response.

I then left and stopped at a neighbor and saw him drive back on E Yellow River Rd. towards Dufour's.

Linda Marion
