MISSION PASSION PURPOSE

HELLO, MY NAME IS BRYCE PERKINS - FOUNDER OF BEES INDUSTRIES

Managing multimillion dollar projects from residential remodels has taught me that success lies within the fine details. Bringing together all the elements of a successful project requires precise communication and timing. The flawless execution of a well-designed plan is always the best-case scenario. But what happens when things don't exactly go according to plan? A general contractor with knowledge and experience can make all the difference. The ability to solve problems on the fly, and effectively communicate changes is a talent not all possess. With over thirty years of experience in residential and commercial construction companies I've put in the time to learn the lessons. Albeit sometimes the hard way.

"A true measure of your worth includes all the benefits others have gained from your success." -Cullen Hightower
