

Hampshire County Council – Adult & Social Care

Guy led an **Adult Social Care strategic commissioning programme**, delivering;

- Redefined the vision, strategic objectives and programme plan and engaged a fragmented team to pull together and believe in the vision and the ability to be able to deliver more, for less
- A strategic supply chain plan for the next 5 years, along with the customer journey pathway and supply chain process to enable the plan
- Leadership and oversight of strategic projects such as Domicillary Care and Residential & Nursing contract retenders to provide assurance, control, consistency; ensure all workstreams work coherently to deliver savings targets.
- Reshaped the failing Care at Home programme into an example piece of work showcased at the National Adults Conference
