## **Chief's Report**

**December 19, 2023**

### **Operations:**

Activity for 2023

146 - Incidents

Activity since last report:

1 – EMS

3– Special Duty

1 – Structure Fire assist to PFD

Activities have slowed for the winter months, giving us an opportunity to catch up on some of our routine activities such as hose testing, ladder testing, and some minor maintenance projects. Training continues to be a priority for the newly hired staff members. Two of the three have now been assimilated into shift positions and are assigned to man a shift alone.

### **Equipment / Facilities:**

The new generator has been installed on E71 and we are waiting for the final remote start controller to complete the install. The parts are currently on back order.

The repairs have been completed on the water leak at fire station 74 and the water to the building have been turned back ON.

### **Administration:**

This is my final Chief's Report after nearly 14 years of service. I wish you all well and a Merry Christmas.

Respectfully submitted;

*Ron Sattelmaier - Fire Chief*
