

It would be an honor to have you as a volunteer in our effort to educate our fellow public and assist the injured and orphaned wild animal patients. Would You Like to help keep North Idaho WILD? Chose a time and frequency when you can complete the wild animal protocol training session. Sometimes we need someone to just bring an animal to us who is in need of help – an animal taxi. Perhaps you could put up a few flyers in town to our presence or promote an upcoming event. Maybe you would like to participate in the highway cleanup or coordinate a fundraising event. If you liked show and tell as a child than public talks are for you. RU social media masterminded? We need your help! The Nature Walk needs trail guides to lead our neighbors and teach about the native neighbors using the animal artifacts at the education stations. Were you the student who enjoyed essay tests? Writing grants is just like that and grants along with community support are how we can remain in existence.

Circle When Available: Monday Tuesday Wednesday Thursday Friday SAT SUN
Mornings Afternoon Evenings Weekly Monthly As Needed

Your Name:
