

# WERO 4

## Australian made Reverse Osmosis Equipment

At WERO we believe the best RO's are made right here down under in Australia. They are built to suit Australian water sources and harsh weather conditions. We take great pride in being a water equipment wholesaler that builds and supports its own equipment. We can customize solutions to your specifications and have complete Pre & Post filtration packages available in stock.

The WERO 4 range of Reverse Osmosis machines are very impressive pieces of equipment and have standard features that most imported machines don't offer. WERO standard features include Stainless steel frames, Australian standard compliant electrical system, Danfos pressure switches, Grundfos or Lowara pump options, ROC controllers, and Schedule 80 pipework and fittings.

- Australian Made
- 304/316 Stainless Steel Frames
- Suitable for ULP and LP membrane types
- PLC and HMI controllers
- Flow ranges from 125 - 900l/h
- Only quality components used
- Multiple configurations available and made to order
- Complete filtration and Pre-filtration systems available
- Carry a wide range of spare parts, Membranes and consumables

	<b>WERO4</b>	
<b>Model</b>	<b>Membranes</b>	<b>Flow rate</b>
WERO4-1	1 x 4040	125-225l/h
WERO4-2	2 x 4040	300-450l/h
WERO4-3	3 x 4040	500-700l/h
WERO4-4	4 x 4040	750-900l/h

Please Note: Depending on the water source & quality, more filtration may be required
