

ETA ALPHA-NEW HAMPSHIRE

Phi-tured Author

Maureen Tacito, civil engineer, has always had a fascination with ocean sediment like seashells, seaweed and certain forms of marine life. Having grown up on the coast and in pursuit of the perfect seashell, Maureen was thrilled the year she found a perfect Junonia or “Juno” seashell. It is one of the rarest shells to find and that shell, combined with her love of the beach, inspired Maureen and her sister Marianne Pasqual to pen a series of Juno books. Available for purchase on Amazon, *Juno’s Island Adventure* and *Juno’s Day at Home – Special Coronavirus Edition* follow

Juno, the rare seashell. From Sanibel and Captiva Islands in sunny Florida, to the importance of the three “W”s of wearing a mask, washing hands and watching your distance, Juno helps teach children there is fun to be at home and while adventuring.
