Our Stay: Monday March 31 – Monday April 7, 2025

Cell/Wi-Fi/Internet/Cable: We have Verizon and had no problems. Internet, we used our own accessibility.

Would we revisit? Yes. One note: we were woken in the middle of the night with a loudspeaker telling us to take shelter due to a tornado in the area. We were able to bring our pets and stay safe in the nearby water treatment center building. Thankful for that. We were safe and watched the radar as storms moved past us and we could return to our RV's.

Area Attractions we did: None but there is plenty to do nearby
