 Our Site # 13 had a huge living room that along with the row stretching over the next 8 or 9 sites backed up to a very large mowed grassy field. Beyond was a long walking/biking gravel road, some shady treed spots with benches, and on both sides of the road were fields of tall grass or soybeans. The super part for us and of course Indi and Rubi, were the multiple groomed trails weaving in and around this area behind the campground and joining up on the tenting side of the campground. There were ponds/lakes, people fishing, a mowed tree forest to run the dogs through, and many twists and turns depending on which fork in the road/path you took.

 Our Stay: Thursday August 8 – Monday August 12, 2024

 Cell/Internet/WiFi/Starlink/etc: Starlink worked perfectly, free campground WiFi,

 Would we revisit? Yes for the large sites along the odd numbered row starting with #13 or higher. As far as the area, we didn't do much exploring.
