

Healthy ii's: A Healthcare Vision for India Symposium

EVENT DETAILS

Date: 18th September 2025

Venue: Habitat Centre, Juniper Room, Delhi

Time: 7:00 PM onwards

We are pleased to cordially invite you to this top-tier symposium on healthcare digital transformation. Join us for a pioneering event that gathers the brightest minds in healthcare and digital innovation to explore the future of ophthalmology in India.

About the Symposium

Discover how cutting-edge healthcare technologies and digital tools are revolutionising the way patients are diagnosed, treated, and cared for in India's leading eye institutions.

Key Topics to be Covered

- Digital transformation in ophthalmic diagnostics
- Tele-Health: Expanding access to rural and underserved areas
- Smart surgical systems and the future of referrals
- Real-time patient monitoring and data-driven care
- National collaborations and innovations for scalable patient outcomes
- Solutions that enable efficiency and capacity in eyecare clinical settings

Who Should Attend

- Top Indian eye Institutes, hospitals and research institutions
- Healthcare technology leaders and innovators
- Public health policymakers
- Clinical directors and hospital administrators
- Healthcare IT specialists and technology integrators

Why Attend?

- Gain insights into the future of digital ophthalmology
- Learn from clinical experts on how they have transformed clinics through innovation
- Discover how cutting-edge technology offers solutions that will change patient care
- Explore impactful innovations improving patient outcomes across India
- Understand how national thought leaders create solutions as a community
