

-For playoffs, see rules on entry sheet.

-Most Wins WEEKLY wins that week's pool. NO point spreads and NO vig, but Administrator may take a free weekly play if there are 10 or more players (waived to date). **Waived for 2022/23. MAY be revisited in 2025**

-Total Points are on Monday night game(s) and are for tie-breaking purposes only. Players who tie in wins and lose on points get their entry back, reg. season ONLY, NO consolation for playoffs.

Closest to total points (over OR under) in ties wins. [Week 17 total-points-game listed on week 17 sheet. Always check bottom of sheet to see if there are TWO games involved in the TOTAL POINTS.]

-Check WELL BEFORE any day's games start to make sure your picks were transferred correctly. We save the original sheets. **Contact me ASAP for any problems BEFORE GAME START.** Original (and almost always correct) grid usually goes up by Saturday night\*\*, but in case of errors (see above) the FINAL, CORRECT GRID SHOULD BE UP BY 1pm SUNDAY. SEE NEW UPDATE RULES ON SHEETS STARTING 2021.

-Picks due by 6pm on day of first game post-Monday (usually Thursday). On Thanksgiving and Week 16 and/or 17/18 check here or entry sheet for adjusted dates/times.

-Note: Grid is not always posted by start of first game, but admin's (and/or Joe's) pick is usually listed prior to start time. If not, it is recorded via text to several players to ensure honesty. Forwarded texts available upon request. You USUALLY\*\* have until Saturday afternoon (sometimes as late as 6pm Saturday, or Friday if Saturday games are scheduled) to change your Sunday/Monday picks. No changes after that (other than a mistake in transferring).

\*\* -The 6pm time is a best case COURTESY. It is NOT a hard and fast rule. If nothing else is going on, the final picks will be posted at 6 on Saturday. BUT...Admin reserves the right to have a life, so don't wait until the last minute, because occasionally the complete grid may go up much earlier based on the picks on the sheets and after that only transfer errors can be changed! Again, this rule is a courtesy. For decades the pool was always JUST the original pre-thursday sheets counted. Then we added flexibility to give everyone maximum injury info, and that is why the closing time can be flexible. But the cutoff time is always the latest Admin can make it. If it turns out to be earlier than usual due to travel or other issues, so be it.

**ALSO NOTE THAT SOME WEEKS HAVE SPECIFIC RULES FOR THAT WEEK PRINTED ON THE ENTRY FORM AND THOSE RULES OVERRIDE THESE!**
