

GLEN
JOHN

BIO

Glen John is a professional open-format international DJ who had a passion for music at a very early age. Born in the UK, Glen began collecting vinyl from the age of seven and after owning his first CD decks at 13, it was clear his passion would one day become a career.

Since becoming a DJ full time in 2014, Glen has performed at top venues and luxury resorts around the world. UK bookings include **Café de Paris, Tropicana Beach Club, Century** and **Heaven London** plus brunch sets across the capital for the **Gaucha** chain. Corporate clients in the UK include **H&M, Uber & IBM.**

Simply incredible

Wow...where do we start with trying to put into words how incredible Wildfire DJs (known as UK DJs Abroad at the time) were at our wedding?! No words will do justice to what they did but here goes...

I came across Wildfire DJs on Instagram and after Skyping with Nick we felt they were exactly what we were looking for but we had no idea just how perfect they would be. Nick was so easy to communicate with and so helpful with any questions we had from the first contact. We met Nick and Glen (who DJ'd on the day) at our venue a few months before the wedding and I think we spent more time laughing than actually talking serious plans which was a sure fire sign that they got us and our personalities.

I then spoke to Glen a few days before the wedding after trying to put a playlist together and Glen told me to trust him and that provided we had given an indication of the genres of music we wanted for each part of the day he would read the crowd on the day. I am SO SO glad I listened to him and we put our trust in him.

Glen was so much more than a DJ - from the moment he arrived he was helping with set up, he worked with our planner perfectly, even working out between them how they would get our bridal party to set off our confetti cannons during the first dance (love seeing you in the background of the videos counting down from 10!), and oh my goodness did he read the crowd! The music was PERFECT. From the truly special moment when I was waiting to walk out of the Château to walk down the aisle and heard him playing Rocket Man (we'd been to see Elton John just a few weeks before with the groomsmen), to the background dinner music, to the party, it was all absolutely spot on. So many of our guests asked where we'd found him and said just how incredible he was. Our friends were asking if we'd given him a playlist and couldn't believe it when we said no, he'd just played what he believed we wanted. It definitely says something when we only had a small wedding and the dance floor was never empty.

We also used Wildfire DJs for our lighting which Nick set up the day before the wedding. Nick was brilliant when advising us on what lighting we should have and the look he created on the rear terrace was exactly what we wanted, turning what was a beautiful outdoor space into something truly special for our wedding.

Glen was with us all day on the wedding day, he created the most perfect atmosphere for every single part of the day and he was an integral part of our wedding. It was an unforgettable day and we can honestly say from the bottom of our hearts that it would not have been the same without Glen & Wildfire DJs. Thank you so so much.

Hannah & Dominic x

WEDDINGWIRE

“Simply the Best!”

“We have nothing but praise for the AMAZING DJ Glen John and UK DJs Abroad! From our planning stages to the wedding event itself, Glen and Nick’s attentiveness, good humor, and incredible skills made for a fantastic experience and VERY fun night! As my wife and I were brainstorming music possibilities for different parts of the ceremony and evening, Glen and Nick were very responsive and helpful, providing suggestions and sample playlists, and prompting us to think about details and moments that benefit from musical accompaniment that we had not considered, such as our entrance to dinner and our cake presentation.

Thanks to their thoughtfulness and guidance we went into the wedding feeling very well covered on everything music. And indeed, the ceremony and dinner music was flawless. And when it came to the dancing – WOW! We had provided Glen with a long list of favorite songs and artists, and Glen both incorporated these and took them as inspiration, applying his expertise to add all of the right songs and artists we had not thought of, making the night's set truly exceptional. His pacing and transitions were perfect, and his lighting of the dance floor set the mood for a party. And party we did! Our guests danced all night long, until 3:30 AM, which was later than planned, but Glen graciously and happily stayed-on for an extra hour, making for an epic night.

Throughout, so many of our friends raved to us about the music, saying Glen was by far the best wedding DJ they had ever experienced. We couldn't agree more! Thank you, Glen and UK DJs Abroad, for your professionalism, your attention to detail, your commitment, your positive vibes, your warmth, and your talent! We felt in very good hands with you from day one, and by 4 AM the night of the wedding Glen was not only DJ but friend. Having you as part of our wedding made it all the more magical and unforgettable!”

Elizabeth & Charlotte, July 2019
