

Burton Hunt Branch of the Pony Club.

BRANCH SUBSIDY POLICY

The branch wishes to support members representing the branch at Area Competitions and will offer the following:

- A total figure of up to £100 per discipline to pay towards either a specialist trainer or venue to assist in the preparation for Area Competition. This will be split equally between those members representing the branch in each discipline. This will be capped to a maximum subsidy per member of £20

Where an organizer wishes to subsidise an event this must go to committee to approval. Subsidy can only occur where branch funds are sufficient and the branch has had sufficient opportunities for fundraising activities in the previous year.

It is important that subsidy is given to events and activities in a fair way that as many members can benefit rather than it being bias towards a particular discipline.

Any fundraising monies made by a particular discipline will go into the 'branch pot' rather than it being specific to the discipline.
