

Burton Hunt Branch of the Pony Club.

BRANCH SUBSIDY POLICY 2023

The branch wishes to support members representing the branch at Area Competitions and will offer the following:

- A total figure of up to £100 per discipline to pay towards either a specialist trainer/venue or resources to assist in the preparation for Area Competition. The objective is not to reduce the cost of 'regular' training. This will be split equally between those members representing the branch in each discipline. This will be capped to a maximum subsidy per member of £20

Where an organizer wishes to subsidise an event this must go to committee to approval.

It is important that subsidy is given to events and activities in a fair way that as many members can benefit rather than it being bias towards a particular discipline.

Subsidy can only occur where branch funds are sufficient and the branch has had sufficient opportunities for fundraising activities in the previous year, this will be agreed in the Autumn of the of the year previous to which the subsidy applies and the policy date updated accordingly.

Any fundraising monies made by a particular discipline will go into the 'branch pot' rather than it being specific to the discipline.
